

WITH THIS KIND OF TRACTION
FOUR-WHEEL DRIVE
WOULD HAVE BEEN A BETTER NAME.

It's here. The strongest upper mid-price ball for heavy oil in Columbia 300's history. The all-new Power Drive Sanded features everything that's made the pearlized Power Drive great - including the proven performance of the Mallet core and a stronger version of the Vaccine particle coverstock. It gives you all the hard charging strength of Power Drive in a ball with more tread to cut through heavy oil.

For more than six generations, Columbia 300 has been putting bowlers in the winner's circle. Now it's your turn. If you have been working on improving your average, if you don't want to let your teammates down -if league night is more than just a night out. Then this is the Power Drive made just for you.

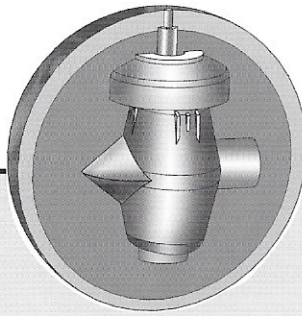

Because Thursday's here. The team's ready. The trash talk has started. And there's absolutely no way you're going to let a little oil spoil your fun.

WHEN BOWLING IS YOUR LIFE.

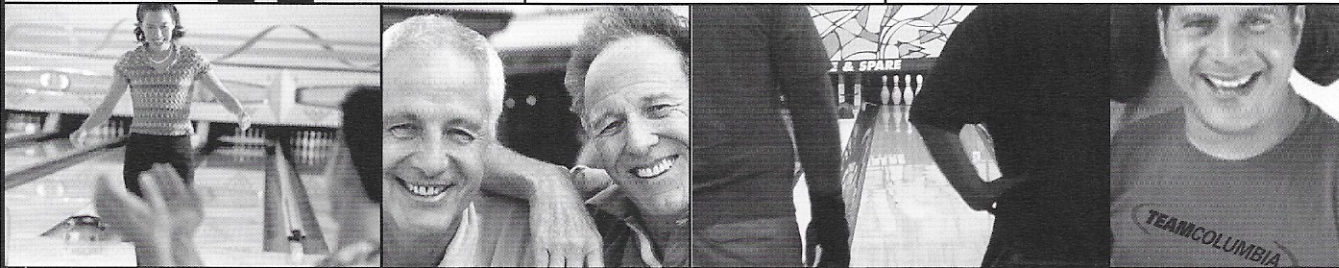

PROUDLY MADE IN THE USA
