

Rebirth of a CHAMPION

You asked for it! You got it! The Ricochet™ is back ... as great as it was before. It's still a winning formula, a perfect match of coverstock and core. This champ was just too good not to make a rousing return. The Reaction™ Ricochet was developed to provide maximum backend reaction on most common lane conditions. Its pearlized reactive coverstock was enhanced with an explosive combination of TEC²™ and Holo-Flex™ particles. Now, add one unbelievable feature that it didn't have then: A lower sales price. The Ricochet Rebound™ is competitively priced in the center of the performance ball market. Check out this return to glory of a champion on the rebound. Ricochet Rebound!

RICOCHET™ Rebound

Columbia bowls the world over.®

FEATURES:

BENEFITS:

CORE TECHNOLOGY:	Dense core body	Concentrates the weight near the center of the core for more roll in oil.
	Dense energy flip blocks	Adds flare potential to the ball for more hook on the backend of the lane.
COVER STOCK:	TEC2™ coverstock plus Holo-Flex™	This particle combination creates a controlled midlane roll with significant backend reaction.
HARDNESS:	75-78
