

Ball Name	<b>DV8 Brutal Nightmare</b>
Part Number	<b>60-105493-93X</b>
Color	Blue/Orange/Lime Hybrid
Core	Nightmare Low RG Core
Coverstock	Class 8 Hybrid Reactive
Factory Finish	500 Siaair Micro Pad / Rough Buff Finish
RG Max	2.557
RG Int	2.544
RG Min	2.505
Differential	0.052
Asymmetric Diff	0.013
RG Average	4.1
Hook (1-200)	200
Length (1-235)	125
Breakpoint (1-105)	105

**Ball Motion** Finished with a Rough Buff Finish, the Brutal Nightmare skids easily through the front and mid-lane with an extremely quick response to friction on the backend creating a highly continuous motion that pummels the pins. The Brutal Nightmare with its new Class 8 Hybrid Reactive coverstock is the most skid / snap DV8 ball to date and should be used on medium oily to oily lane conditions.

**Reaction Setup** The DV8 Brutal Nightmare can be drilled using the standard drilling techniques developed for bowling balls with asymmetric cores.

**Ball Maintenance** To reduce oil absorption and remove dirt from the surface of the ball, clean your ball with a cleaner designed for reactive bowling balls.

**Warranty Info** All DV8 bowling balls have been manufactured to the highest standards of workmanship and material in the bowling industry, and we warrant that they will be free of defects in materials and workmanship for a period of two years from the date of purchase.
