

Ball Name	DV8 Killer Nightmare				
Part Number	60-105573-93X				
Color	Red/Black Pearl				
Core	Hell Raiser Ultra Low RG Core				
Coverstock	Class 6 Reactive				
Factory Finish	500 Siaair Micro Pad / Rough Buff Finish / High Gloss				
RG Max	2.536				
RG Int	2.518				
RG Min	2.480				
Differential	0.056				
Asymmetric Diff	0.018				
RG Average	3.1				
Hook (1-220)	165				
Length (1-235)	120				
Breakpoint (1-105)	100				
Ball Motion	Finished with a High Gloss Polish, the Killer Nightmare projects easily through the front and mid-lane with a very quick response to friction on the backend creating a highly angular motion that rips through the pins on medium oily to oily lane conditions.				
Reaction Setup	The DV8 Killer Nightmare can be drilled using the standard drilling techniques developed for bowling balls with asymmetric cores.				
Ball Maintenance	To reduce oil absorption and remove dirt from the surface of the ball, clean your ball with a cleaner designed for reactive bowling balls.				
Warranty Info	All DV8 bowling balls have been manufactured to the highest standards of workmanship and material in the bowling industry, and we warrant that they will be free of defects in materials and workmanship for a period of two years from the date of purchase. DV8 agrees to repair or replace this ball if at any time during the warranty period it is found to be defective in material or workmanship.
