BALL MOTION

The Divine is the strongest Diva to date. The Class 7G Hybrid coverstock provides ultimate traction in the mid-lane with a powerful backend motion through the pins on medium to oily lane conditions.

REACTION SETUP

The DV8 Diva Divine can be drilled using the standard drilling techniques developed for bowling balls with symmetric cores.

BALL MAINTENANCE

To reduce oil absorption and remove dirt from the surface of the ball, clean your ball with a cleaner designed for reactive bowling balls after each session.

WARRANTY INFO

All DV8 bowling balls have been manufactured to the highest standards of workmanship and material in the bowling industry, and we warrant that they will be free of defects in materials and workmanship for a period of two years from the date of purchase.
