### BALL MOTION

Featuring the new Class 13G Solid Reactive coverstock wrapped around the Thug core, the Thug Unruly will provide maximum hook potential on heavy oil lane conditions.

### REACTION SETUP

The DV8 Thug Unruly can be drilled using the standard drilling techniques developed for bowling balls with asymmetric cores.

### BALL MAINTENANCE

To reduce oil absorption and remove dirt from the surface of the ball, clean your ball with a cleaner designed for reactive bowling balls after each session.

### WARRANTY INFO

All DV8 bowling balls have been manufactured to the highest standards of workmanship and material in the bowling industry, and we warrant that they will be free of defects in materials and workmanship for a period of two years from the date of purchase.
