NASTY NAIL EXTREME

TECHNICAL INFORMATION

COVERSTOCK

Reactive Neoflex "X-7375" with mica

CORE DESCRIPTION

A single density inverted light bulb core with a bottom flip block for added backend snap.

PERFORMANCE EVALUATION

With the core/new coverstock combination the "X" clears the front of the lane with ease and has it's energy waiting to be released on the backend. The new "X-7375" cover allows recovery from eXtreme angles.

DRILLING SUGGESTIONS

Complete drilling information is included with each ball. Always consult your professional ball driller for most effective fit, drilling, care and performance of your Nasty Nail bowling balls.

SPECIFICATIONS

Coverstock	Reactive Neoflex "X-7375"
Hook Potential-Overall: <i>(Scale 1-20)</i>	17
Typical Length: <i>(Scale 1-20)</i>	12
