**RG DIFFERENTIAL** .050

**15 LBS**

**RG MAX** 2.529

**RG MIN** 2.479

**RG DIFF** 0.050

The Relativity Hybrid reactive coverstock describes our newest formulation for a higher friction coverstock. With its 4000 grit Siaair finish, the Inferno Blue Flame revs quickly and grips the mid-lane for a strong continuous back end motion. The Inferno Blue Flame has a strong and controllable hook motion for rev dominant and slower ball speed players on medium to medium/heavy oil conditions.
