Introducing  
the

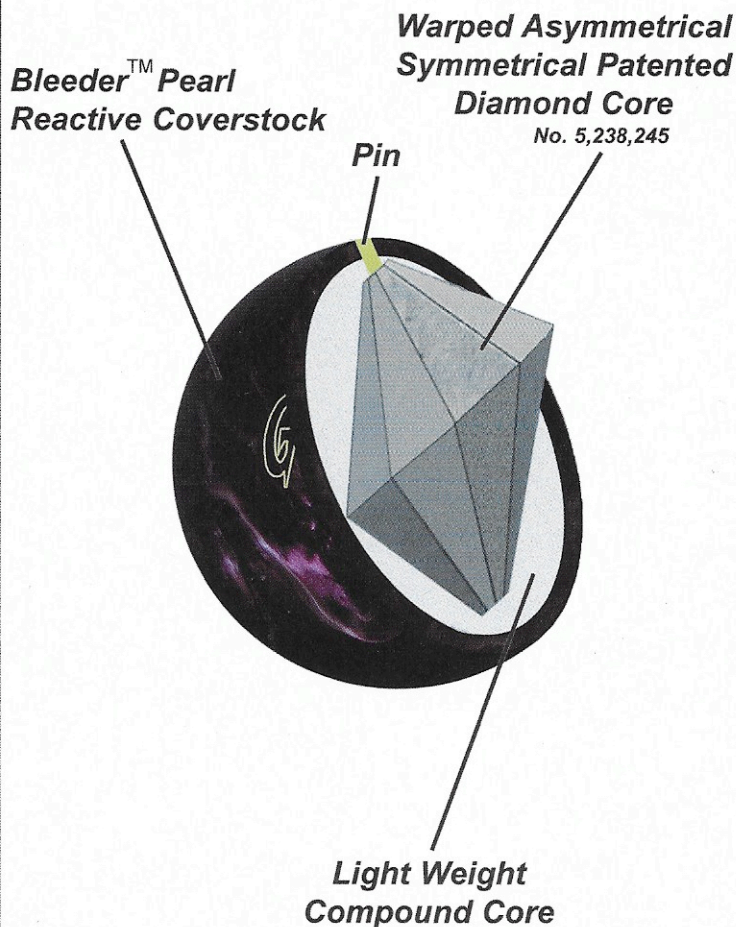

# G-FORCE EVOLUTION

**TECHNICAL DATA**

Conquer the competition and evolve beyond the average bowler with Lane #1's G-Force Evolution. On medium to drier lanes, the new Bleeder pearl reactive coverstock wastes no energy in the front, bleeding off all its energy on the backend. Combining this with Lane #1's famous W.A.S., warped asymmetrical symmetrical patented Diamond core produces an unforeseen amount of G's when cornering down the lane, creating an Evolution of strikes. The G-Force Evolution, transform yourself into an intergalactic bowling star. Light years ahead of the competition, how many G's can you handle?

*P.S. Remember...Nothing cuts through pins better than a Buzzsaw...!!*

**Color: Merlot**

**Cover Stock: Bleeder™ Pearl Reactive**

**Core: W.A.S. Patented Diamond**

**Overall Hook Rating: 70 out of 120 Max**

**Backend Hook: 90 %**

**Flare Potential: 5+**

**Pin Placement: 12 O'Clock 1-5" out**

**Construction: Modified 2-piece**

**15lb. RG Min: 2.516**

**15lb. RG Max: 2.568**

**15lb. Diff: .051**

**Hardness: 75-77 D-Scale**

**Finish: Highly Polished**

**Increased Dynamics: 15-14-13-12 lbs.**

**Available Weights: 12, 13, 14, 15, 16 lbs.**

**LANE #1 Strike more w/the Diamond Core..!**

# Introducing the **G-FORCE**

## **NEBULA**

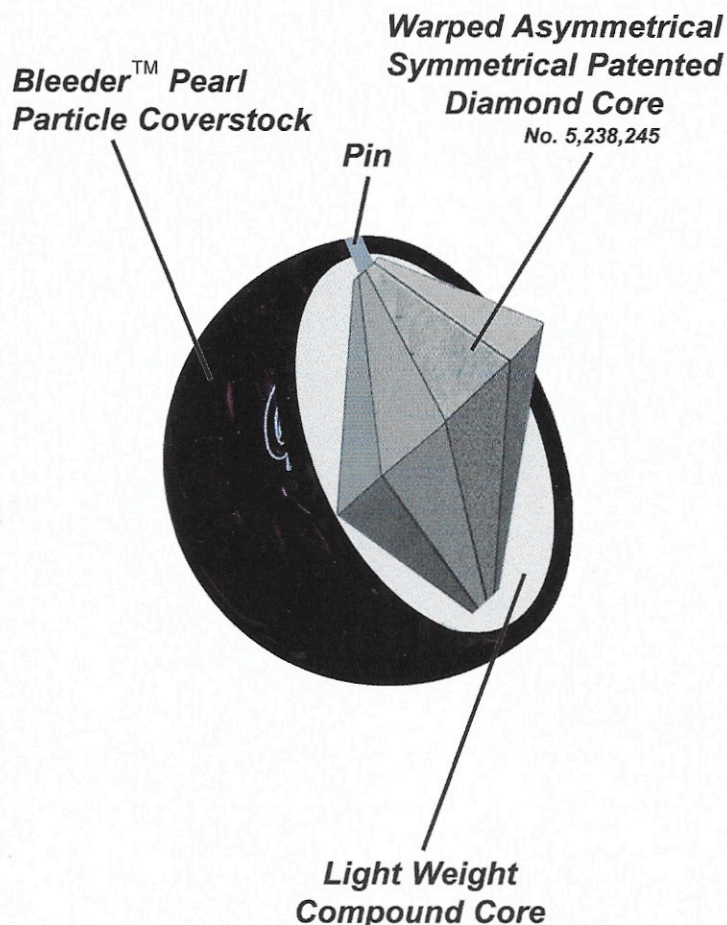

### **TECHNICAL DATA**

From the outer reaches of the bowling galaxy comes the G-Force Nebula, featuring the all new Bleeder coverstock. With a dusting of particles inside, the Bleeder pearl particle coverstock bleeds off energy earlier, keeping it from flying past the breakpoint on medium heavy oiled lanes.

Combined with our famous W.A.S., warped asymmetrical symmetrical patented Diamond core, the G-Force Nebula pulls an unforeseen amount of G's when cornering down the lane, producing strikes at the speed of light. Light years ahead of the competition, how many G's can you handle?

*P.S. Remember...Nothing cuts through pins better than a Buzzsaw..!!*
