# SUPERNOVA

## TECHNICAL DATA

After careful and tedious testing, LANE #1, the innovator in bowling ball technology, has created a powerful new force unmatched by the competition, the G-Force Supernova. The Supernova, is a nuclear fusion of our patented Buzzsaw diamond and W. A. S. (warped asymmetrical/symmetrical) cores.

This dense neutron star packs a heavy, high velocity impact with a controlled continuous arc. Merciless and massive, a super force is born to collapse the pins, thus creating a thermo-nuclear explosion of strikes and scores...!! Step up your game like never before and ask yourself... How many g's can you handle..?

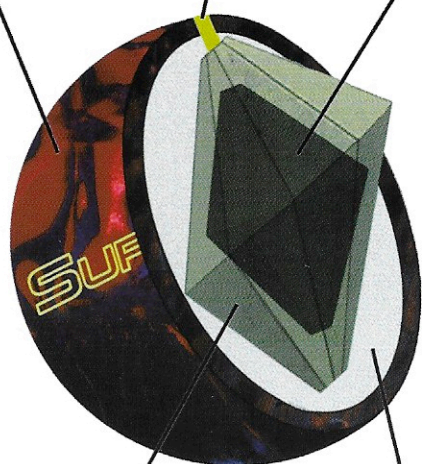

**P.S. Remember...Nothing cuts through pins better than a Buzzsaw..!!**
