Part Number

60-105385-93X

Coverstock

Propel X Solid

2-Color Solid

Red / White

Hardness: 76-78

Factory Finish Steps

500 / 1000 / 2000 Siaair Micro Pad

Performance

Hook Potential: 160

Length: 100

Typical Breakpoint

Shape: 80

Chart Position: R - 10

Available Weights

12-16 Pounds

Coverstock: The **Lethal Revolver** maximizes its performance by using **Propel X™ Solid** reactive coverstock technology. **Propel X Solid** features an enhanced pore structure to provide Xtra consistency from shot to shot and Xtra workability on a wider variety of lane conditions..

Core: The **Jack™** core was designed as a low RG symmetric core with a high differential. The low RG engages in the mid-lane assisting in ball motion, and the high differential increases track flare potential giving the ball more opportunity to grip the backend while using standard layouts.

Reaction Characteristics

Ball Motion: With its 2000 Siaair Micro Pad finish, the **Lethal Revolver** unites the proven **Propel X Solid** coverstock and the **Jack** low RG core to produce a ball motion that clears the front part of the lane and produces a strong yet predictable ball motion from the breakpoint through the pins especially for bowlers with lower rev rates.

Reaction Setup: The **Lethal Revolver** can be drilled using the standard drilling techniques developed for symmetric bowling balls.
