Part Number

60-105342-93X

Coverstock

Propel X

2-Color Pearl

Black / White

Hardness: 76-78

Factory Finish Steps

500 / 1,500 Siaair Micro Pad / Rough Buff

Performance

Hook Potential: 150

Length: 110

Typical Breakpoint

Shape: 85

Chart Position: P - 6

Available Weights

12-16 Pounds

Coverstock: The **Loaded Revolver** maximizes its performance by using **Propel X™** reactive coverstock technology. **Propel X** features an enhanced pore structure to provide Xtra consistency from shot to shot and Xtra workability on a wider variety of lane conditions..

Core: The **Jack™** core was designed as a low RG symmetric core with a high differential. The low RG engages in the mid-lane assisting in ball motion, and the high differential increases track flare potential giving the ball more opportunity to grip the backend while using standard layouts.

Reaction Characteristics

Ball Motion: With its Rough Buff finish, the **Loaded Revolver** unites the proven **Propel X** coverstock and the **Jack** low RG core to produce a ball motion that clears the front with ease, is aggressive in the mid-lane with a quick continuous response to friction on the backend.

Reaction Setup: The **Revolver** can be drilled using the standard drilling techniques developed for symmetric bowling balls.
