

TRIUMPH OVER ANY CHALLENGE FROM THE GODS.

Looking for **VERSATILITY**? Well, your search is over. Meet **HERCULES**, featuring our all new **VERSA-TECH** (Pearl and Solid Particle coverstock). This newest addition to the **MoRich** line is capable of handling a multitude of lane conditions and surface types, depending on surface preparations and drilling layouts. **HERCULES** is truly **multi-reactional**.

So whether you want it to react like **Pearl Particle** (compound factory finish), **Solid Particle** (sanded with 600 grit paper), or **Reactive Resin** (polished), **HERCULES** will deliver. Adapt to any challenge and achieve legendary results with the new **MoRich HERCULES**.

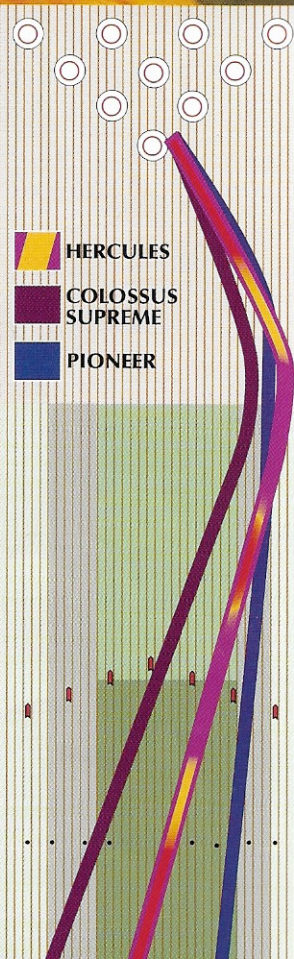

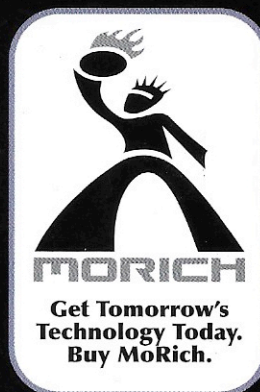

TECHNICAL INFO

AVAILABLE IN 13-16 lbs

Average RG	2.515
Differential	.056
Flare Potential	Large
