## BALL PATHS

MINOTAUR

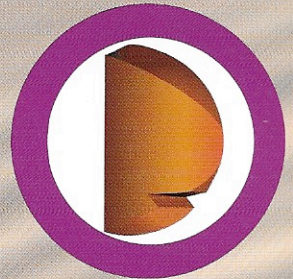

LABYRINTH

AVAILABLE WEIGHTS: 13-16

**Minotaur** has a rounded, notched core which produces a later, sharper backend reaction. And the enhanced friction of its GriPpeR EF coverstock increases the total overall hook. So now you can attack the pins with a later and sharper break point. The pocket is yours for the taking.

<b>Average RG's</b>	2.520
<b>Differential</b>	.049
<b>Flare Potential</b>	Large
<b>Cover Stock</b>	<u>GriPpeR EF</u> (enhanced friction)
<b>Core Type</b>	<b>MOtion Tuned</b> Free Form
<b>Core Dynamics</b>	Strongly Enhanced Mass Bias
<b>Ball Structure</b>	Single Density Core, Dual Shell

MINOTAUR

**Labyrinth** with its tapered core revs up easily, producing true midlane reaction for a reliable, consistent roll pattern. The GriPpeR coverstock is a dual action cover which rolls like a particle ball when smooth or dull and like a reactive ball when shined, so the overall hook of the Labyrinth is easily adjustable. Just change the surface, and then finish off the pins.

<b>Average RG's</b>	2.514
<b>Differential</b>	.047
<b>Flare Potential</b>	Large
<b>Cover Stock</b>	<u>GriPpeR</u> (particle reactive)
<b>Core Type</b>	<b>MOtion Tuned</b> Free Form
<b>Core Dynamics</b>	Strongly Enhanced Mass Bias
<b>Ball Structure</b>	Single Density Core, Dual Shell

# MOTION TUNED CORES

CORE SHAPE DETERMINES MOTION

LABYRINTH

MINOTAURS

In ancient times, the legend of the Minotaur and the Labyrinth came to signify human sacrifice, instilling fear in the men and women of Athens. Today, the Minotaur and Labyrinth are even more menacing. They call for the sacrifice of countless pins and create fear in any opponent.

Inside both of these *MORICH* balls lies the heart of a legend - the *MOtion Tuned Core*. As the ball travels down the lane, the core profiles change with every revolution. *MOtion Tuned Cores* maximize each ball's unique performance throughout the entire path to the pins. The result - better pin carry. And massive pin destruction.

Call now to receive your complimentary *Axis Trac* Ball Motion Analysis CD-ROM. And find out for yourself that when it comes to the Minotaur and Labyrinth, there's nothing mythological about them.
