

Drive your game  
beyond the sound barrier.

## *Sonic X Solid™*

The Sonic X Solid™ is Roto Grip's newest addition into the mid-priced market. It uses the same Sonic "Boom"™ Core from the original Sonic X™ with a new solid reactive coverstock.

This High RG / low Differential weight block gives you that predictable look at the breakpoint and smooth continuation on those lighter oil patterns. This combination of coverstock and core will drive your game beyond the sound barrier.
