BOWLING BALLS

14-16 lbs

Assault™

The Assault's revolutionary weight block surrounded by a strong particle cover provides constant motion for STRONG Hook-&-Roll characteristics. If you're in search of hook on those oily conditions, here is the answer!

- Coverstock: Sure Grip Traction Plus™
- Finish: 800-grit sanded
- Hook Potential: 24 (25 scale)
- Length: 4 (10 scale)
- Back-End: 9 (10 scale)

DefCon II™

The combination of a pearl particle cover with Roto Grip's Lock-and-Load weight block creates the highest differential and truest rolling ball available today. This pearl particle cover will give you the edge on medium to drier lane conditions.

- Coverstock: Pearlized Sure Grip™ w/ Traction Particles
- Finish: 1500-grit polished
- Hook Potential: 19.5 (25 scale)
- Length: 6 (10 scale)
- Back-End: 9 (10 scale)

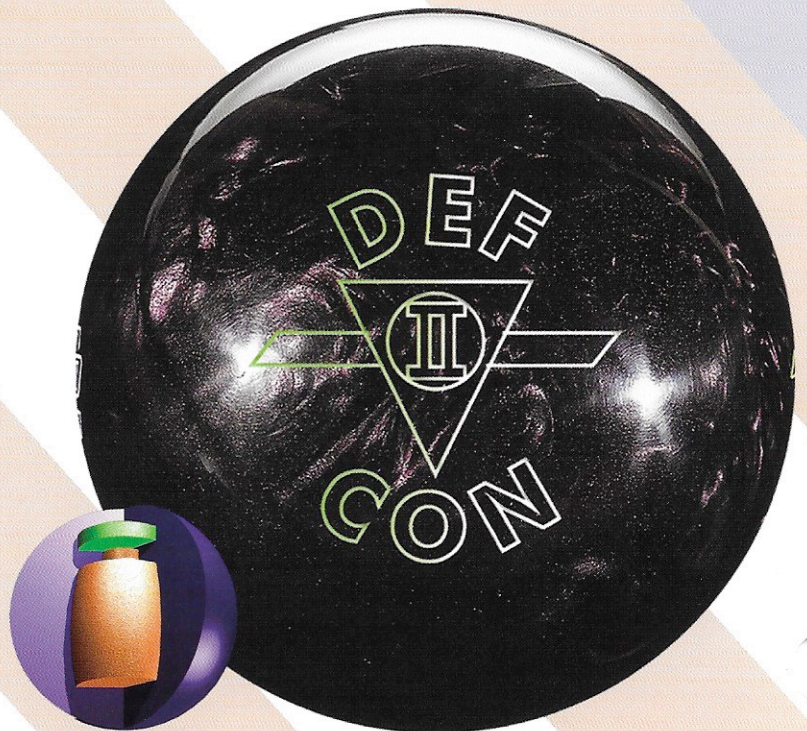

14-16 lbs

Assault Pearl™

This weapon combines the strength of the original Assault weight block surrounded by a new pearlized particle cover. Pearlizing this potent weight block gives you added length and STRONG backend on medium oil patterns.

- Coverstock: Pearlized Sure Grip Traction Plus™
- Finish: 2000-grit polished
- Hook Potential 22 (25 scale)
- Length: 7 (10 scale)
- Back-End: 10 (10 scale)

14-16 lbs

SD73™

14-16 lbs

This ball put Roto Grip back on the map. Once banned from the PBA Tour, standards have since changed making it legal for competition.

The internal construction creates dynamic energy, which combined with the aggressive coverstock, provides acceleration through the mid-lane and a backend reaction with unequalled power and control.

- Coverstock: Sure Grip™ Reactive
- Finish: 800-grit sanded
- Hook Potential: 20 (25 scale)
- Length: 5 (10 scale)
- Back-End: 10 (10 scale)

RetroRoto Red Solid™

Featuring a solid reactive cover with the same weight block as the Blue pearl, the Red Retro gives you greater read in the mid-lane with strong arcing backend and extreme hitting power. It will soon be a classic in your bag.

- Coverstock: Super Sure Grip™ Reactive
- Finish: 400-grit sanded
- Hook Potential 19 (25 scale)
- Length: 5 (10 scale)
- Back-End: 7 (10 scale)

12-16 lbs

RetroRoto Blue Pearl™

The only thing Retro about it is the name and the look. This is a brand new weight block and shell design. It is designed to give you good length with strong continuous backend, and extreme hitting power.

- Coverstock: Super Sure Grip™ pearl reactive
- Finish: 1500-grit polished
- Hook Potential: 17 (25 scale)
- Length: 7 (10 scale)
- Back-End: 9 (10 scale)

Grenade™

The most deadly spare ball on the planet!

Features include a clear polyester cover with a Grenade core. Throw it straight at your spares and eliminate them with ease. If your spare game is in need of help, then just get a Grenade and throw it!

- Coverstock: Polyester
- Finish: 2000-grit polished
- Hook Potential: 5 (25 scale)
- Length: 9 (10 scale)
- Back-End: 1 (10 scale)
- Weights available: 14-16 lbs.
