

Judgement Day!

**ROTO
GRIP**
KING OF THEM ALL!

THE APOCALYPSE™

The Apocalypse™ marks the end of average bowling! We've taken the best characteristics of the Cyclotron II™ core along with a totally new Rev-elation™ reactive coverstock giving you the ultimate performance on those medium oil patterns.

The Rev-elation™ coverstock combines the best properties of solid and pearl reactives. Our extensive testing has shown the strong mid-lane traction of a solid reactive combined with the sharp backend motion of a pearl reactive.

A new world of ball reaction awaits!

TECHNICAL DATA

Factory Finish: 1500 Polished | Radius of Gyration:
2.54 (Medium) | Differential: .055 (High) | Track
Flare Potential: 7 + Inches | Length: 14 (20 Scale)
Backend: 20+ (20 Scale) | Lane Condition:
