Your goal...to win. Your weapon...

The **Global Assault™**

TECHNICAL DATA

- Factory Finish- 800 sanded
- Radius of Gyration- 2.48 (Low)
- Differential- .055 (High)
- Hook Potential- 21 (25 scale)
- Track Flare Potential- 7+ Inches
- Length- 5 (10 scale)
- Backend- 8 (10 scale)
- Cover Stock- Super Sure Grip™ Reactive
- Weight Block- Concave Radius High Torque™ in a core
- Color- Ocean Blue/ Green
- D-Scale- 73 to 75

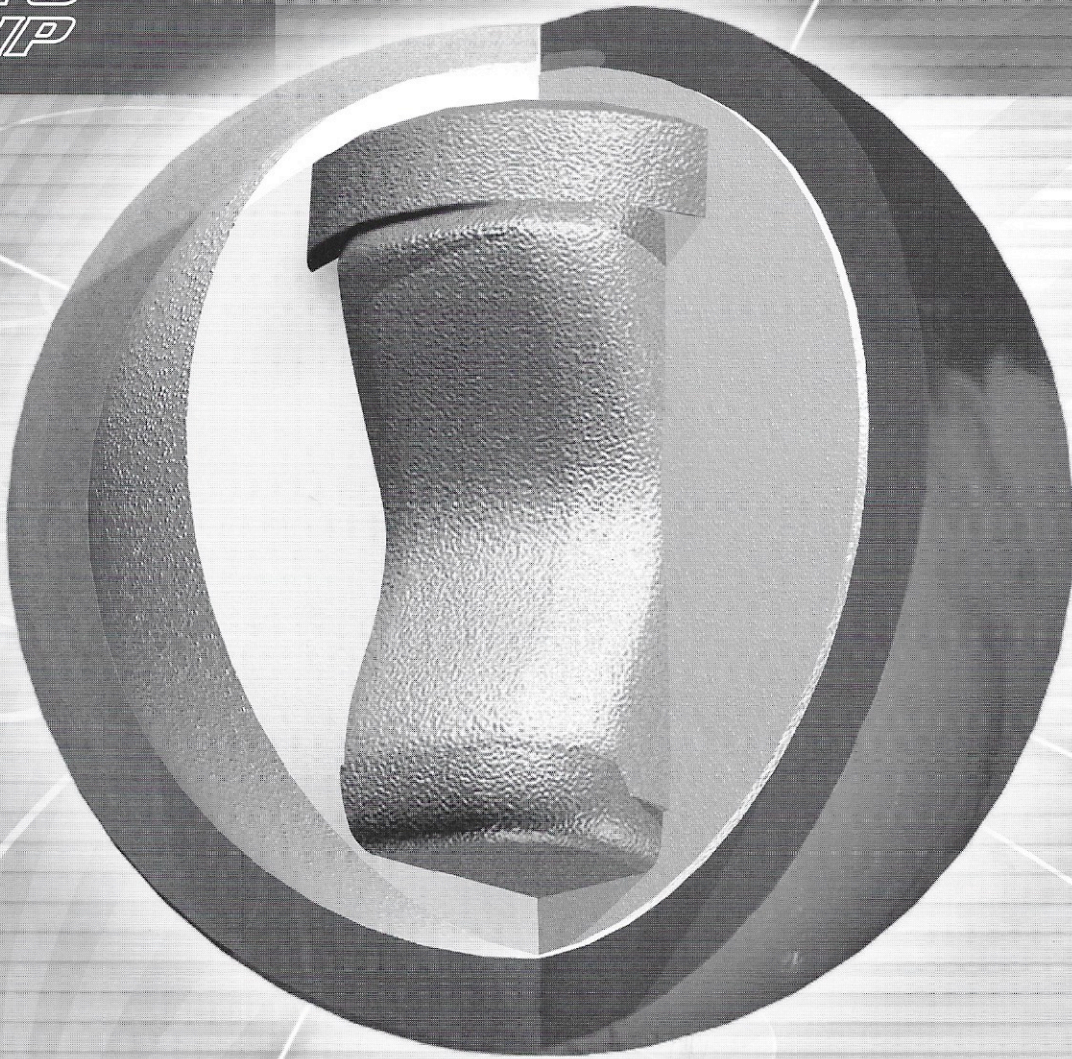

WWW.ROTOGRIP.COM

The new Global Assault is fueled by a low RG, high differential weight block. Encapsulated in a core, The **Concave Radius High Torque™** increases rev and read in the mid-lane and explodes with back-end power.

Encasing the weight block is an improved **Super Sure Grip™** solid reactive cover maintaining traction in medium to heavy oil. The **Super Sure Grip** cover is easily adjusted with use of pads, sandpaper, and polishes.
