

Taking your game to new heights!

Roto Grip® strives to give you the Ultimate in High Performance bowling balls and the *PURE FUEL™* delivers a high octane boost to your game.

We took the Cyclotron™ core from the original *Fuel™* and *Top Fuel™* and modified it to deliver more power and energy at the breakpoint. This translates into superior mid-lane reaction combined with intense backend force.

The *Ultimate Grip™ Pearl Particle* coverstock gives you smooth acceleration through the heads with strong mid-lane and explosive backend reaction.

The coverstock is easily adjusted with the use of scotch-brite pads and polishes.
