

Divide & CONQUER

A new generation within the kingdom has materialized and looks to seek total domination. Mutated from the original, the Rogue Cell™ challenges superiority by utilizing the all-new Cytoplasmic XL™ coverstock. This hybrid reactive features a unique blend of additives creating the highest friction to lane values ever produced. With its fusion of solid and pearl coverstock it vows to generate the strongest and most consistent hook from release to impact. Combining that with the highly successful, performance proven Nucleus™ core, the Rogue Cell will be *A Force to Reckon With*.
