A Triumphant Masterpiece

The SAGA™ is our latest release in the storied EPIC™ line of High Performance Asymmetrical bowling balls. The synergy of asymmetry along with hybrid coverstock technology delivers the sharpest backend reaction of any High Performance bowling ball on the market today.

The Maximus II™ core has proven to be one of the strongest, fastest spinning cores ever developed. Since its original inception in the EPIC™ and modified version in the Epic Battle™ it has proven to be a winner by taking home a Megabucks Title in February 2006 along with several titles around the world.

The final touch is the newly developed Ultimate Vision Hybrid™ coverstock; the combination of 1 part solid and 2 parts pearlized reactive delivers superior mid-lane read and pin shattering entry angle to the pocket like no other.
