

THE WINNING STREAK CONTINUES!

SILVER STREAK PARTICLE™

Throughout our performance history, the Roto Grip line of equipment has proven its dominance in every level of competition.

The new Silver Streak Particle™, our latest star in the mid-priced market, combines outstanding value with superior performance characteristics.

The combination of the Rotary™ core and Sure Grip Traction Plus™ particle coverstock creates unparalleled performance that translates into increased power in the mid-lane with continuous backend reaction on those medium to heavy oil lane conditions.
