THE SONIC BOOM™

The Sonic Boom™ is Roto Grip's latest addition into the entry level mid-price market. We have added the all new **Sonic Boom-IT™** core to give you added backend and hitting power.

This high RG, low-medium Differential weight block produces excellent length and a stronger backend move than the original Sonic X on medium-lighter oil patterns.

The combination of **Sure Grip II™** pearlized coverstock and the **Boom-IT** core will shatter the “Sound Barrier”.
