

**ROTO  
GRIP**

New to the game and  
already making noise.

Just because we're fresh on the scene, don't expect us to disappear into the corner like scared little puppies. We're here to get this whole place rockin'. Because bowling doesn't always have to be about the competition. Once in a while it should just be about good times. All we need is a lane, good tunes and a house full of people that wanna rock out with their weight blocks out. Raise your glasses for a night to remember, and let's get loud.

SHOUT™

## GUTS.

Deep down, the same.

At our core, me and the Scream are identical. Our NEW Late Roll 46™ core was designed to provide maximum length with stable control down lane, producing a minimal amount of flare and strong hitting power through the pocket. *What? You didn't think something so pretty could hit hard?*

	16 lb	15 lb	14 lb	13 lb	12 lb	11 lb	10 lb
RG VALUE:	2.57	2.57	2.57	2.63	2.65	2.73	2.77
RG DIFF:	.022	.022	.022	.009	.011	.012	.015

## GRIT.

On the outside, oh so different.

*We both pack attitude on the inside, but I must say I got the looks in the family. Keep dreamin', Scream. My NEW 42L™ pearl reactive coverstock allows me to easily clear the front part of the lane – and look good doing it. Well my NEW 45L™ solid reactive coverstock allows me to easily clear the front part of the lane too, but I react sooner than Scream. Typical male. So quick to react. What can I say? I'm a man of action.*

Factory Finish: 1500-grit Polished

Flare Potential: 2-3 inches

Coverstock SCREAM: 42L Pearl Reactive

Coverstock SHOUT: 45L Solid Reactive

Color SCREAM: Neon Green/Neon Pink

Color SHOUT: Blue/Orange

Hardness: 74-76 on D-Scale

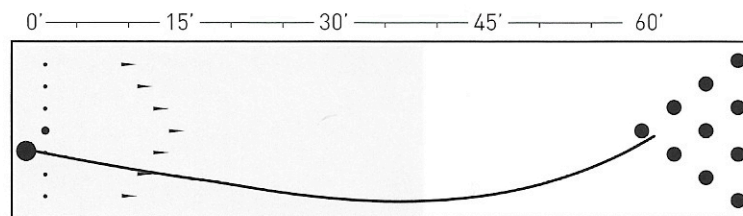

## GRIME.

Light oil means good times.

When you're facing lighter oil conditions where you need a ball that delivers great length and control at the breakpoint, me and Scream are ready to crank up the decibels. *Ready to get loud, Shout? You know it.*

Lane Condition - Light Oil

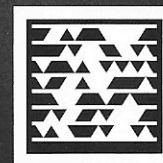

*The ball path represents Roto Grip's bowling ball tester using the Scream. The Shout has a similar ball path, but will start to break slightly earlier. Ask your pro shop professional how Scream and Shout will work for you.*
