WHAT THE KINGPIN KNEW, HE TOOK TO THE GRAVE!

ASSASSIN™
 Always hits its target. # N40-10

NAME:
Assassin™
 ITEM #:
N40-10
 COVERSTOCK:
ProTraktion™
 CORE CONSTRUCTION:
**Modified 4-piece design with
 "Power Rev" technology**
 HARDNESS:
76-78
 BALL HOOK:
20
 COLOR:
**Blue/green/yellow multi-color
 with neon red logo**
 WEIGHTS:
**14-16 lbs. "Power Rev" core design
 12-13 lbs. Core™ technology design
 10-11 lbs. Traditional pancake design**

Somebody had to take him out, it was only a matter of time. He and the rest of his nine gang members ruled the lanes for too long. Now it was payback time and their bill was long over due. They weren't just going down...they were going six feet under. Track would see to that.

THE ASSASSIN—Take aim and fire. The ASSASSIN'S modified 4-piece design, "Power Rev" core and ProTraktion™ multi-color coverstock make for one lethal hit. This ball always hits its mark. The flare potential is medium to high, the backend reaction is deadly and the hook rating is off the charts. For medium to heavy oil lane conditions.

NAME:
Enforcer™
 ITEM #:
M98-48
 COVERSTOCK:
ProTraktion™
 CORE CONSTRUCTION:
**Modified 4-piece design with
 "Power Rev" technology**
 HARDNESS:
76-78
 BALL HOOK:
20
 COLOR:
Enforcer red with white logo
 WEIGHTS:
**14-16 lbs. "Power Rev" core design
 12-13 lbs. Core™ technology design
 10-11 lbs. Traditional pancake design**

THE ENFORCER—Vengeance is yours. The ENFORCER'S "Power Rev" core combines our basic design from the Triton Heat™ with an added flip block on top so you can drive straight through the heads. And with our ProTraktion™ coverstock, this ball tames the lanes with a tremendous backend reaction and the most hook potential of any Track ball ever designed. For heavy oil (sheen box finish) or medium oil (polished).

ENFORCER™
 One tough cookie. # M98-48

T.K.O. CONTENDER™

The heavy hitter. # M16-48

NAME: **T.K.O. Contender™**
 ITEM #: **M16-48**
 COVERSTOCK: **ProTraktion™**
 CORE CONSTRUCTION: **Core™ technology**
 HARDNESS: **76-78**
 BALL HOOK: **19**
 COLOR: **Blue/purple with yellow/orange logo**
 WEIGHTS: **12-16 lbs. Core™ technology design**
10-11 lbs. Traditional pancake design

CHAMP™

It delivers. # M81-10

NAME: **Champ™**
 ITEM #: **M81-10**
 COVERSTOCK: **ProTraktion™**
 CORE CONSTRUCTION: **Modified 2-piece "Heavyweight Champ"**
 Core technology
 HARDNESS: **76-78**
 BALL HOOK: **18**
 COLOR: **Striking blue with yellow/orange logo**
 WEIGHTS: **14-16 lbs. Heavyweight Champ design**
12-13 lbs. Core™ technology design
10-11 lbs. Traditional pancake design

THE T.K.O. CONTENDER—The T.K.O. CONTENDER packs one hell of a punch thanks to its ProTraktion™ coverstock. This player hooks on even the heaviest oil pattern, yet doesn't run out of gas or burn up like many of the other strong coverstocks on the market today. It's versatile. It hooks like a fiend. And it holds its own so you continue to score.

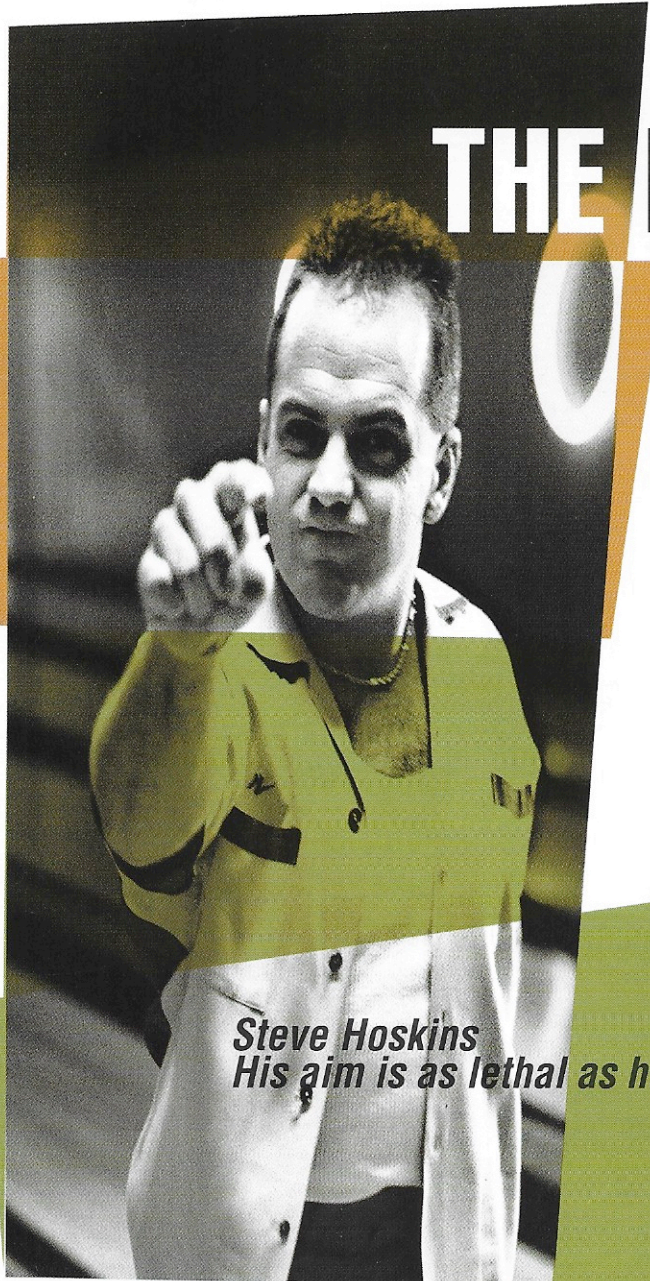

THE CHAMP—Knock'em down for the count. The CHAMP'S design offers a perfect balance between density, geometry, core and coverstock. All so you'll power down the lane with a smooth transition from roll to hook. With its keyhole-shaped core to clear the heads and close in hard, plus the undefeated ProTraktion™ coverstock to bite through heavy oil, it's unstoppable.

*Sugar Ray Leonard
He takes them out ten at a time.*

THE CASE OF THE HEADLESS PIN.

Steve Hoskins
His aim is as lethal as his game.

The call came in late at night. Another victim was found at the lanes. The profile was the same as all the others. A defenseless pin left smashed, trashed and minus its upper half. Track dealt the last hand all right...and this fiend was holding all the cards.

STOMP – Crush your competition. The STOMP floats through the front part of the lane with ease. And it retains enough energy for a dramatic turn on the backend. It's all thanks to our "Dual Flip Block" core design and PowerPlus™ II with Gold MICA coverstock. A combination that gives you a high-performing reaction at a very affordable price. Use on medium oil lane conditions.

PEARL STOMP – Knock'em dead. The PEARL STOMP hits with more high-performance features for less. The reduced flare potential in our Core^{2™} technology design, combined with our new PowerPlus™ III pearl coverstock, gets this ball further down the lane before it makes a powerful turn into the pocket. It has the sharpest angle of entry of all Track balls on medium oil lane conditions.

STOMP™

A smashing success.
M43-48

NAME:
Stomp
ITEM #:
M43-48

COVERSTOCK:
PowerPlus™ II with Gold Mica
CORE CONSTRUCTION:
Multiple-Density 4-piece with
"Dual Flip Block" core technology
HARDNESS:
76-78
BALL HOOK:
16

COLOR:
Crimson red with gold logo
WEIGHTS:

14-16 lbs. Dual flip block design
10-13 lbs. Traditional pancake design

PEARL STOMP™

Strike first, ask questions later.
N13-15

Core™ technology**

CODE RED CRITICAL MASS SPECIAL EDITION

—The weapon of choice from the inside out. CODE RED has a powerful yet controlled backend reaction with more revolutions and less hand action. For wet or dry lanes.

TRITON HEAT—Toast opponents with one of the top winning balls in PBA history – the TRITON HEAT. The TriCore™ technology stabilizes the ball before it enters the pocket to raise your percentage of strikes on both pocket and off pocket hits.

TRITON ELITE—Take your competition out with the TRITON ELITE. The Core™ design gives you added hook. And our PowerPlus™ with MICA shell creates a smooth, even arc with tremendous control and consistency. For heavy oil.

DEADLY THREADS

DOUBLE BALL BAGS—Lots of room. Holds shoes, accessories and two balls. Use as an extra bag for all your stuff. Made of durable Cordura with heavy-duty support rings.

Black # 281-02-14

Red # 281-48-14

Teal # 281-18-14

TRACK 2-BALL WHEEL BAGS—Packed with features. Includes: non-slip, padded adjustable shoulder strap, padded retractable handle grip, metal hardware, wide u-top zipper opening, shoe shelf, sponge ball cup, two-ball foam holder and wide-set wheels.

Navy/Tan # J02-23
Jade # J02-16
(Black, Pine, Navy/Tan available in XXXL)

TRACK MAGIC—The ball polishes that keep you ahead of the game. ProTraktion™ Polish increases backend reaction on particle technology coverstocks. Clean 'N Dull™ restores urethane and reactive balls for consistent action on oily lanes. Clean 'N Sheen™ gives reactive resin, urethane and polyester balls a base coat for more skid. Reaction Plus® adds hitting power and tackiness to reactive balls. And Clean 'N Polish™ is an all purpose high-gloss finish to increase length and delay hook on medium to dry lanes.

ProTraktion Polish™
 8-fl. oz. bottle # POL-PT-08
 32-fl. oz. bottle # POL-PT-22
