TRACK HIGH PERFORMANCE

EZ MONEY

Getcha some of this! The EZ Money utilizes a 4-piece multi-density core and our new WOW particle coverstock to destroy the rack. WOW particle is a new coverstock technology that produces more overall hook with increased energy retention at the pins. This combination produces a later and stronger breakpoint than its counterpart, the Money. Make money the EZ way ... STRIKING!

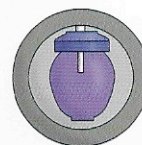

#0W65-51-XXX

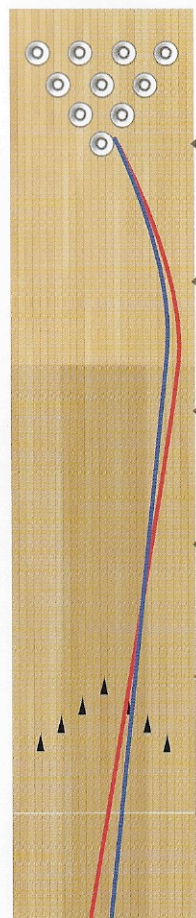

MONEY

Money talks. Proof positive. So cash in on your talent with this powerhouse of a ball. Our exclusive Bigfoot particle coverstock and Power Rev core create a strong mid-lane reaction with a continuous backend. You'll leave your competition in the dust. And that's a promise you can take to the bank.

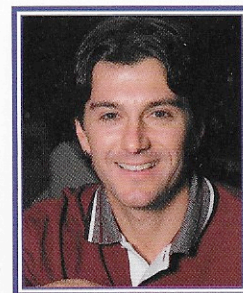

#0W36-51-XXX

Watch for the New Ball coming Fall 2002

EZ MONEY — red line
MONEY — blue line

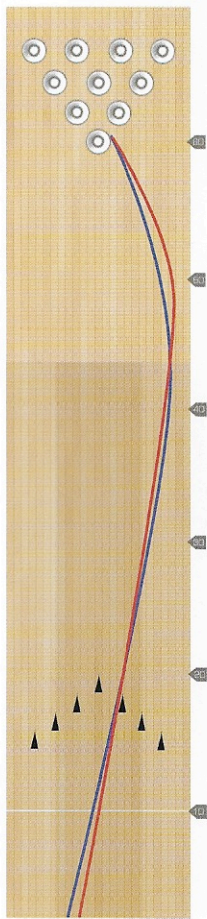

Track Pro
Amleto Monacelli

Favorite Layout:
Pin 4-1/2 and Cg 3 inches from PAP below fingers balance hole on axis.

Comments:
"For me this layout is the most predictable at the breakpoint".

TRACK MID PRICE +

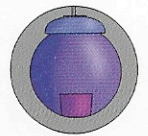

VOODOO — blue line
SPELL — red line

TRACK MAGIC™ THE SPELL

Cast your Spell over the competition and rule the game. The medium Rg multi-density core is encased in our Bigfoot particle coverstock. Bigfoot increases the Spell's hook and versatility. The combination is spellbinding. It carries the ball through the front of the lane before letting it loose on the backend to do its damage. A blur of purple and gold. The power is yours.
#0W56-51-XXX

TRACK MAGIC™ VOO DOO™

A ball possessed! With the magic potion of its reactive coverstock and core-in-a-core technology, Voo Doo™ turns in a wicked performance on medium lane conditions. In any circumstances, you can count on its charmed consistency. The secret lies in its polished finish and medium flare potential. You'll rule the game with swirling orange/purple sorcery and leave the competition in a cold sweat.
#0W29-51-XXX

Track Pro
Steve Wilson

Favorite Layout:
Pin 5 and Cg 4 inches from the axis.

Comments:
"This drilling lets me control the midlane and still have a strong and continuous backend reaction".

TRACK MID PRICE

TRACK MAGIC™ HEX-TREME

We've taken value to the Hex-treme and piled on super performance and knock-'em-dead looks. Dual torque blocks mimic the flare potential of its big bruiser brother, The Hex. And the polished multi-color Super-Flex™ shell teams up with the medium high Rg core for a bang-up backend reaction. This star-quality, action-packed killer ball won't break the bank with its surprisingly affordable tag.

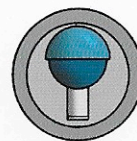

#0W43-51-XXX

TRACK MAGIC™ THE HEX

Throw your Hex on the lanes. This combination of Core 2 technology and Superflex reactive produces the most versatile and consistent reaction in the Track line. The fact that this fearsome ball is all yours for a sweet, affordable price can be your secret.

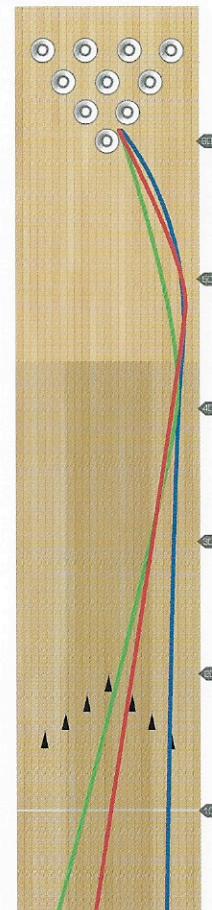

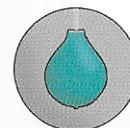

#0V86-51-XXX

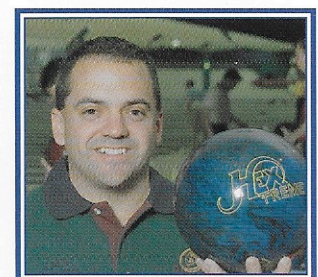

TRACK MAGIC™

Yes! The Track Magic™ is magic. Start with a lightbulb core, add a feisty thick-shelled resin and particle blend coverstock, and you've got today's lane conditions beat. The Track Magic™ is great for high rev players and sport conditions. The really good news is that this pin-buster isn't a budget-buster.

HEX-TREME — Red line
 HEX — Green line
 TRACK MAGIC — Blue line

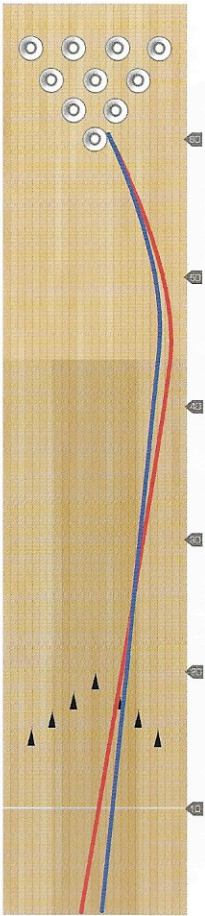

Track Pro
Steve Hoskins

Favorite Layout:
 Pin 5-1/2 and Cg 5 inches from the PAP above fingers balance hole on axis

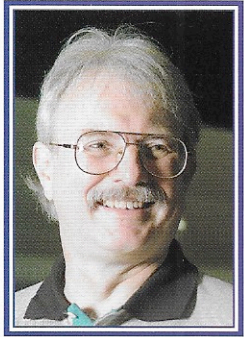

Comments:
 "This drilling is the most versatile with all of my releases".

NU-LINE

Maker of original X-Calibur

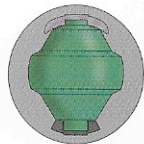

X-PEDITION — red line
X-CELERATOR — blue line

Track Pro
Bob Glass

Favorite Layout:
Pin 4-1/2 and Cg 4 inches from PAP above fingers.

Comments:
"Pin in layouts create more length which is critical for forward rollers like myself".

X-PEDITION

Searching for a new way to strike? Check out the X-Pedition. This ball's high profile core and ProTraktion coverstock produces an extremely high (.065) flare potential which delivers the strongest backend of any NU-Line particle ball to date. Run 'em over with the X-Pedition.
#0W48-51-XXX

X-CELERATOR

Speed your way to higher scores. The X-Celerator features a reactive coverstock and Power Nugget technology. Power Nugget technology increases rev potential and entry angle for all bowlers on any given lane condition. Leave your competition dazed at the starting line.

TRACK BAGS

DOUBLE TOTE

When you want to go on the light side, load your shoes and stuff in the extra large side pocket and a couple of your Track high performers into this roomy tote. It's built for tough action, with durable Cordura and heavy-duty support rings.

Black

#0280-02-160

TRACK 2-BALL WHEELED BAGS

Bells-'n-whistles on wheels! There's plenty of room in this well-designed double-ball bag. The wide u-top zip opening lets you get to everything easily, including the shoe shelf and two strong molded ball cups. The navy and maroon bags have outside pouches on both sides. Carry it any way that works. With a non-slip adjustable shoulder strap; a retractable, padded handle grip that locks; side carrying grips; and wide-set wheels. Built to last with heavy metal hardware. (Locking feature not available in the black double.)

CUSTOMIZE YOUR BALL REACTION WITH TRACK MAGIC

PROTRACKTION™

Particle technology balls have a real teammate in ProTracktion™. It fights against the early roll that plagues particle coverstocks. ProTracktion™ increases length and controls the backend reaction. Tip: Using your ball spinner, apply a base coat of Clean 'N Sheen™ first, then ProTracktion™.

8-fl.oz. bottle #0PT-899-160 32-fl.oz. bottle #0PT-329-160

CLEAN 'N SHEEN™

A veritable time machine! It takes your ball back to its factory-fresh sheen finish (1000 grit). The texture is just abrasive enough to remove oil and dirt from your ball's surface. Clean 'N Sheen™ is also used as a base coat for all of your Track Magic™ products. To get the full benefits of Clean 'N Sheen™, use it on a ball spinner.

32-fl.oz. bottle #0CS-329-160

REACTION PLUS®

This liquid cleans and retains tackiness at the same time. Use it on polished or dull balls. Reaction Plus® keeps the surface intact and doesn't remove shine. Applied by hand or on the ball spinner, it works to the max.

8-fl.oz. bottle #0RP-899-160 32-fl.oz. bottle #0RP-329-160

CLEAN 'N POLISH™

This polish is specially formulated to increase length on medium to dry conditions, whether you apply it manually or with a ball spinner. The high-gloss finish will bring raves. Get the most out of it by treating your ball with Clean 'N Sheen™ first. Well worth the extra effort.

8-fl.oz. bottle #0CP-899-160 32-fl.oz. bottle #0CP-329-160

MAGIC SHINE™

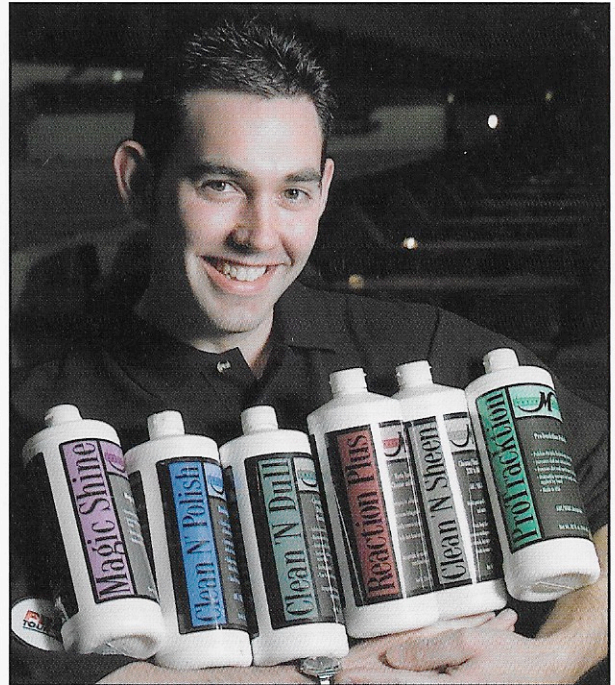

Polish and tackify your reactive and particle tech balls with Magic Shine™. It lives up to its name. You'll be able to count on more length with a stronger backend. Magic time!

8-fl.oz. bottle #0MS-899-160 32-fl.oz. bottle #0MS-329-160

CLEAN 'N DULL™

Our super warrior goes to it to clean and increase tackiness without adding shine. It'll remove dirt and oil on both reactive and particle technology bowling balls. Clean 'N Dull can be applied by hand or by ball spinner. And it's approved for use during ABC/WIBC competition.

8-fl.oz. bottle #0CD-899-160 32-fl.oz. bottle #0CD-329-160

TRACK TOWEL

No dirt, no oil, no sweat. Our 100% cotton towel will keep you and your ball dry and clean. In black with teal logo, so it won't show the dirt. Can't have too many. #0295-02-990
