THE RULE – DELTA 1™

Teal/White
SKU# 1110-51-XXX

Coming in August!

The latest in high-tech asymmetric core technology from Track International, the industry leader in innovation.

Evolutionary. Revolutionary.

THE HIGH PERFORMANCE ASYMMETRIC LINE

Track has long been the innovator in high performance asymmetric core designs. Combining these potent revving cores with the industry's best coverstocks has allowed Track to stay ahead of the field when it comes to technology.

88888

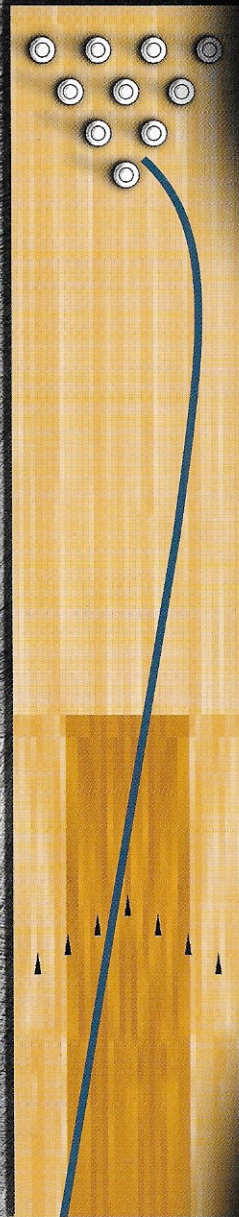

THE RULE GP2™

Blue/Orange
SKU# 1041-51-XXX

Never has the industry seen a particle ball that is aggressive in the mid-lane without giving up angular, continuous backend motion in heavier oil environments. The Rule GP2 features a combination of two different particles precision-injected into the aggressive Goo™ reactive. We matched the new coverstock with the large-volume Morpheus 1.0™ core, added the high-volume Rev-Lever attachment from the Rule and the Xception core for strong mass bias, raised the RG for more energy retention, and attached a flip block for awesome backend reaction. Factory sanded with 1200 grit, the GP2 is the most aggressive ball for heavy oil conditions in Track history.

RULE GP2™

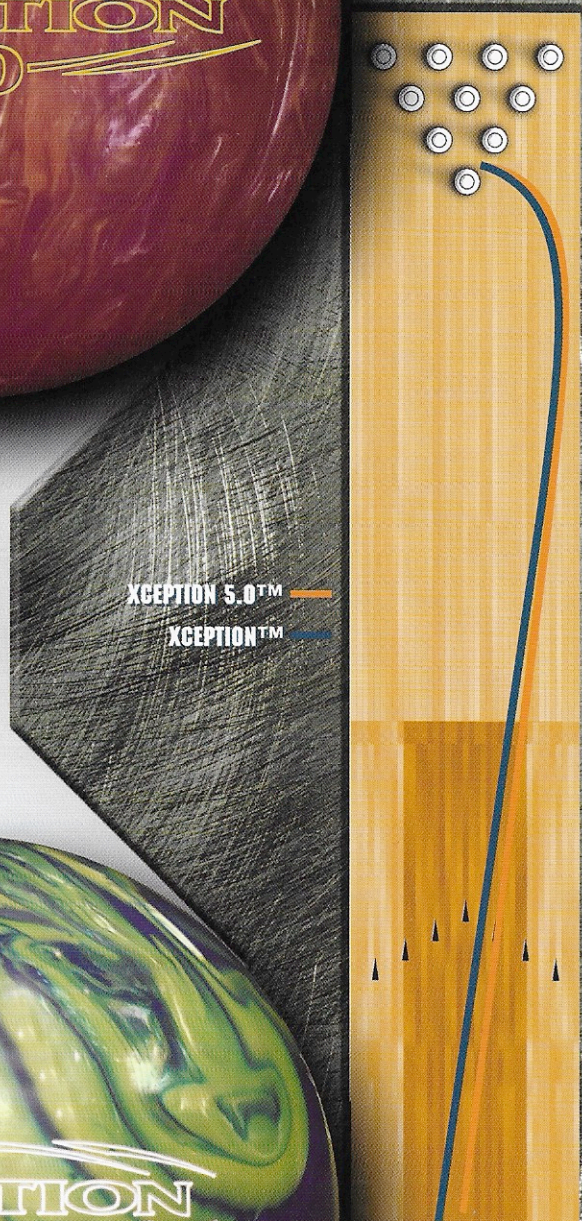

ASYMMETRIC LINE

888⁸⁸

THE XCEPTION 5.0™

Purple Pearl/Yellow Pearl
SKU# 1102-51-XXX

Your Rulebook isn't complete without the new Xception 5.0, the complement to the Xception and the Rule GP². The Xception 5.0 is the newest in Morpheus™ asymmetric core designs. It features the strongest intermediate differential in Track history, which makes the ball spin to its preferred axis in 5.0 seconds, creating unprecedented mid-lane transition. Combining this effective core with the factory compound polished Fang LS™ light load particle coverstock, the Xception 5.0 gets more mid-lane roll while retaining the strong breakpoint angle deep inside the lane.

XCEPTION 5.0™

XCEPTION™

888⁸⁸

THE XCEPTION™

Blue Pearl/Gold Pearl
SKU# 1062-51-XXX

The Xception is the strongest skid-flip high performance ball in the Track lineup. Our potent Goo-LS™ reactive coverstock—factory compound polished—houses the high-revving Morpheus 2.0™ core with the dense Rev-Lever attachment that creates a strong change of direction. The result is a pearlized ball that retains energy and maintains traction better than competitors' high-performance reactives and allows you to open up the lane in medium oil conditions.

All balls USBC approved.

HIGH PERFORMANCE

888⁸⁸

THE ARSENAL ANGULAR™

Red Pearl/Black Pearl
SKU# 1074-51-XXX

The Arsenal Angular features Track's newest particle coverstock, PEAK™. This unique particle combines the benefits of particle's mid-lane traction with the stronger, continuous backend of reactive resins. The Arsenal Angular features a medium-density flip block for medium flare and conserves energy for a more angular breakpoint. Pearllized and factory compound polished, it's best for medium oil conditions and inside angles, and is the number one weapon for medium-to-slower ball speeds.

— ARSENAL ANGULAR

— ARSENAL AGGRESSIVE

THE ARSENAL SERIES

Every competitive bowler knows the value of a complete Arsenal. Comprised of high powered symmetric core designs and Track's state-of-the-art reactive and particle coverstocks, the ball reactions within the four Arsenals allow the tournament bowler to outscore his opponent, even on challenging lane patterns.

888⁸⁸

THE ARSENAL AGGRESSIVE™

Aqua/Black
SKU# 1082-51-XXX

This ball draws the battle lines for your competition. Featuring the PEAK particle coverstock, the Arsenal Aggressive contains a high-density flip block for high flare and produces stronger mid-lane roll and more traction. Factory sanded with 1200 grit, it's best for heavier oil patterns and faster ball speeds. The Arsenal Aggressive reads the lane transitions smoothly and allows you to experience strong hook motion while still having the confidence that a predictable ball motion gives you.

SYMMETRIC LINE

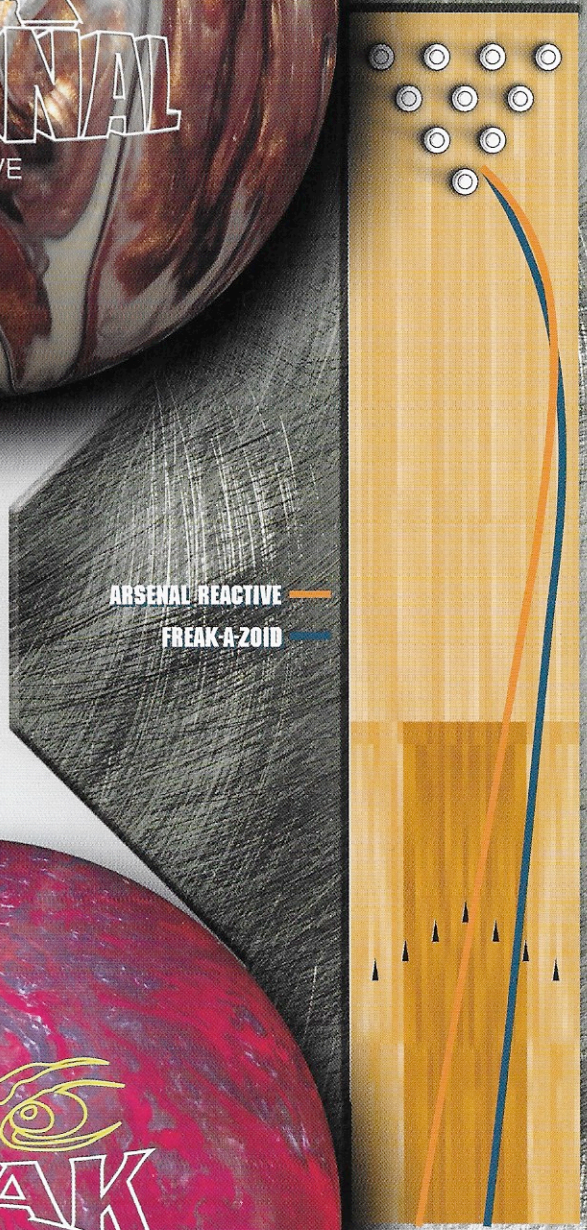

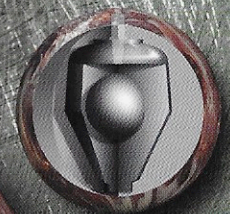

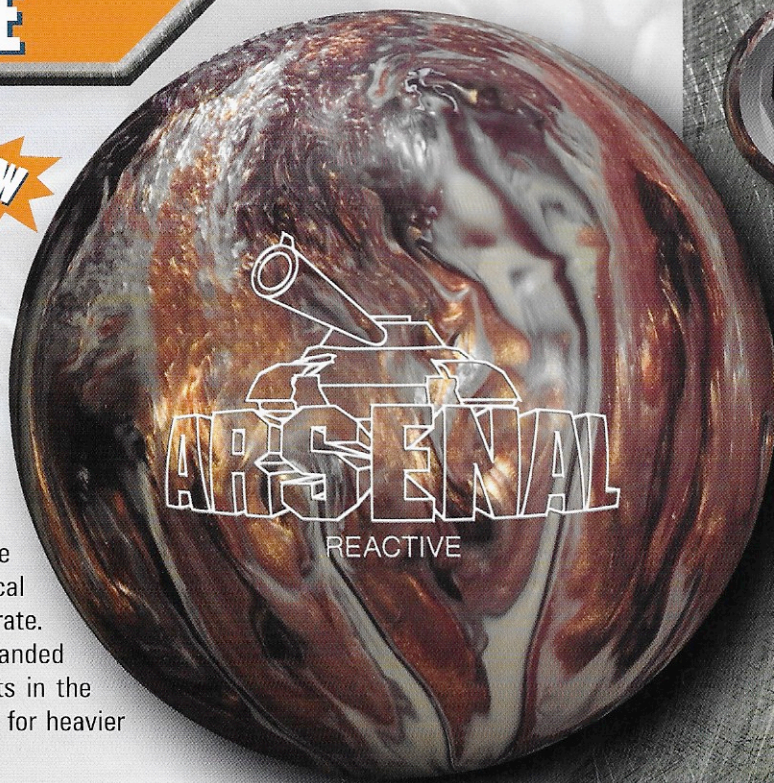

888⁸⁸

THE ARSENAL REACTIVE™

Black/Copper/Silver Pearl
SKU# 1108-51-XXX

Designed to conquer both competitive lane conditions and league patterns, the Arsenal Reactive creates the ability to attack the lanes with confidence. The explosive core of the Arsenal Strong Reactive pairs a high-density rev-ball inside the extremely low RG Morpheus Radical Symmetric core to create a high rev rate. Encasing it within the new 1200-grit sanded Power Punch™ reactive coverstock results in the strongest symmetric reactive bowling ball for heavier oil in Track's history.

ARSENAL REACTIVE —
FREAK-A-ZOID —

888⁸⁸

THE FREAK-A-ZOID™

Purple Pearl/Red Pearl
SKU# 1022-51-XXX

We combined cutting-edge Track technology to produce a ball like no other – the Freak-A-Zoid. We took our popular Morpheus 1.0 core and made it symmetrical to provide more controllability without losing power. Then we paired this new core with our Power Plus Reactive™ coverstock and lowered the overall RG to increase the rev rate. The result? Freak-A-zoid's unbelievable control and amazing performance. Factory compound polished, the Freak-a-Zoid is best suited for medium oil patterns where controllability, not angularity, is the key to higher scores.

All balls USBC approved.

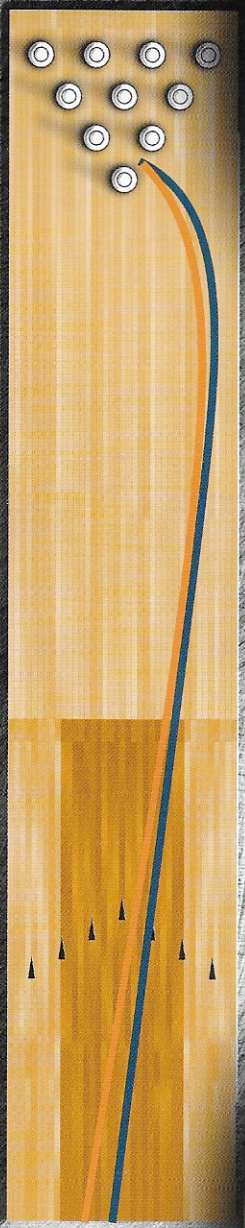

888⁸⁸

THE BLUE HEAT™

Blue/Red/Bronze Pearl
SKU# 1104-51-XXX

Someone turned up the Heat another notch! Introducing the Blue Heat, the strongest of the mid-priced Heat series. Designed for heavier oil and synthetic lanes, the Blue Heat uses a 1200-grit sanded, light-load version of the potent WOW 2™ particle coverstock to provide traction. Inside is the multi-piece, high-flare Heat 2™ core, which combines a high-density egg with a dense flip block to provide more mid-lane reaction and a stronger hook potential in heavier oil.

— BLUE HEAT
— SLASH

THE HEAT SERIES

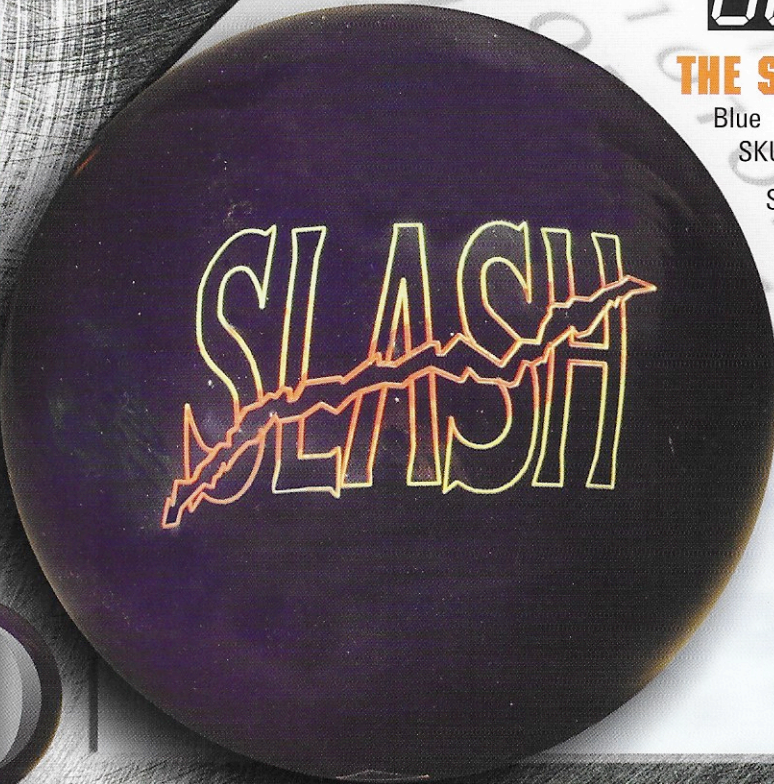

The Heat series is designed to provide the bowler with four distinctive options in ball reaction. Comprised by some of the most beloved multi-density symmetric cores and coverstocks from Track's impressive history, the Heats have won numerous PBA and PWBA events. And now they are available at a more affordable price.

888⁸⁸

THE SLASH™

Blue
SKU# 1069-51-XXX

Slashing through pins and cutting up the lane has never been this exciting. The Slash, factory sanded with 1200 grit, combines the popular Triton Elite™ core with the same Power Plus EX reactive coverstock that made the Elite one of Track's most popular and versatile balls. Great for players of all rev rates and ball speeds, the Slash performs best on medium-to-heavy oil conditions.

PERFORMANCE LINE

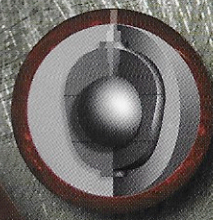

888⁸⁸

THE HEAT™

Burgandy Pearl w/Mica
SKU# 1080-51-XXX

The ball that won more PBA national tournaments in 1997 than any other is one of the most revered and requested products that Track has ever produced. The innovative tri-core technology contains three components: the Rev Core to lower RGs and create a higher rev rate, the Flip Core for increased flare potential and backend transition, and the Balance Core designed to provide increased dynamics throughout the weight range.

Using the same factory compound polished Power Plus™ reactive resin with mica and pearl that enabled it to burn up the competition in the late '90s, the Heat is in its element in shorter-to-medium length oil patterns and where retained energy is paramount.

HEAT —
DESERT HEAT —

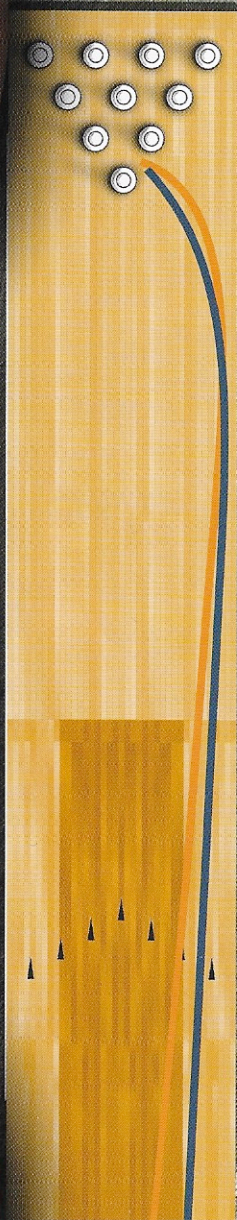

888⁸⁸

THE DESERT HEAT™

Red/Orange Pearl
SKU# 1106-51-XXX

Dry lanes bring even the greatest bowlers to their knees. Don't sweat it! Designed to retain axis rotation and down-lane continuation, the Desert Heat is the lowest flare two-piece in Track's storied history. The high-luster polished, pearled Power Plus EX reactive coverstock enables the Desert Heat to get through the dry fronts and mid-lanes and still provide strong hitting power.

All balls USBC approved.

SINGLE DENSITY PERFORMANCE LINE

888⁸⁸

THE SOLUTION POWER PLUS™

Purple/Blue/White
SKU# 1112-51-XXX

Taking your game to the next level requires a ball that balances power with control. The Solution Power Plus uses a lower flare version of the Elite core. The medium flare potential of the core produces a strong, but predictable, backend hook motion. The 800-grit sanded Power Plus reactive resin is a proven winner, and the surface texture can be modified for earlier hook for those with faster ball speeds.

THE SOLUTION SERIES

Track has created this striking pair to appeal to those bowlers looking to upgrade from their entry-level equipment with the predictability that single density core designs provide. Simple in design, yet powerful, the Solutions are designed with the league bowler in mind.

888⁸⁸

THE SOLUTION POWER PLUS EX™

Teal/Grey Pearl
SKU# 1114-51-XXX

The Solution Power Plus EX is designed for those with slower ball speeds and those bowling on lighter oil conditions, where delaying the hook is most important. The high-luster, polished Power Plus EX reactive resin is designed to grab the lane less in the mid-lane, allowing the bowler to play a straighter trajectory to the pins. A lower flare version of the Elite core provides the explosive hitting power that Track products are known for.

— SOLUTION POWER PLUS
— SOLUTION POWER PLUS EX

All balls USBC approved.

ACCESSORIES

TRACK TOWEL

SKU# 029510990

Keep in style with our woven jacquard bowling towel. Made of 100% cotton, it is machine washable and a necessity for every Track enthusiast.

TRACK TAPE TOOL

SKU# OTT9-99-XXX

The new Track tape tool features a beveled edge designed to remove or insert tape from your thumbhole quickly. It also can be used to pry loose finger grips for replacement. The easily accessible storage cavity holds 30 pieces of Bowlers Tape™ without bending or crushing. Every tool is made of durable injection-molded ABS plastic resin, and it fits nicely in your Track accessory case.

TRACK SHIRTS

Get on Track and look great with the Track line of bowling shirts. All shirts come in a variety of sizes and logos to suit your needs.

PREMIER 4-BALL

4-Ball Wheeled, High-End Bag
Blue/Black
SKU# 1J0610120

- 6-inch wheels
- Front-loading bottom compartment
- Top section removes to become a full, premium-quality two-ball bag with padded shoulder strap
- Locking, square handle
- Roomy accessory pockets for storage
- Stores shoes to size 15
- Dobby construction

888⁸⁸

PREMIER 3-BALL

3-Ball Wheeled, High-End Bag
Blue/Black
SKU# 1J0510130

- Wide, 5-inch wheels
- Locking, square handle
- Roomy accessory pockets for storage
- Stores shoes to size 15
- Dobby construction

888⁸⁸

PREMIER 2-BALL

2-Ball Wheeled, High-End Bag
Blue/Black
SKU# 1J0310140

- Wide, 5-inch wheels
- Locking, square handle
- Roomy accessory storage pockets
- Stores shoes to size 15
- Dobby construction

888⁸⁸

PREMIER TOTE

2-Ball Tote, High-End Bag
Blue/Black
SKU# 1J0110160

- Padded shoulder strap
- Metal hardware for durability
- Stores shoes to size 15
- Available in Track's signature colors

TRACKSTER LINE

888⁸⁸

TRACKSTER™ 2-BALL

2-Ball Wheeled, Value-Priced Bag

Black/Silver

SKU# 1J0202140

- Wide, 5-inch wheels
- Locking, square handle
- Large accessory pocket for storage
- Stores shoes to size 15
- Dobby/EVA construction

888⁸⁸

TRACKSTER™ 2-BALL

2-Ball Wheeled, Value-Priced Bag

Blue/Black

SKU# 1J0210140

- Wide, 5-inch wheels
- Locking, square handle
- Large accessory pocket for storage
- Stores shoes to size 15
- Dobby/EVA construction

888⁸⁸

TRACK ACCESSORY BAG

Blue/Black

SKU# 0J0810160

The perfect accessory for the true Track enthusiast, the Track Accessory Bag is a handy way to keep your tools of the trade in a safe, convenient place. It features a zippered pocket in front, perfect for Bowlers Tape™, hand conditioners, bevel knives, and four-ounce bottles of Track polishes and cleaners, as well as two additional zippered compartments for storing valuables. The bag measures 9" x 7" x 2".

888⁸⁸

TRACKSTER™ 3-BALL

3-Ball Wheeled, Value-Priced Bag

Blue/Black

SKU# 1J0410130

- Wide, 5-inch wheels
- Locking, square handle
- Large accessory pocket for storage
- Stores shoes to size 15
- Dobby/EVA construction

888⁸⁸

TRACKSTER™ 3-BALL

3-Ball Wheeled, Value-Priced Bag

Black/Silver

SKU# 1J0402130

- Wide, 5-inch wheels
- Locking, square handle
- Large accessory pocket for storage
- Stores shoes to size 15
- Dobby/EVA construction

BALL MAINTENANCE

POWER WASH™

4 oz. SKU# OPW4-99-160
32 oz. SKU# OPW3-29-160

- Safe to use on all types of coverstocks
- Removes residue, belt marks and surface oil
- Creates more backends
- Safest product on the market
- Nothing cleans better
- Emulsifies lane oil
- **4 oz. bottles, apple scent**

CLEAN N' TACKY™

4 oz. SKU# OCT4-99-160
32 oz. SKU# OCT3-29-160

- Cleaner/Restorer for urethane, reactive resin and particle balls
- Safely draws oil out of ball
- Removes dirt, grime and belt burns easily
- Great on oily lanes to keep consistent reaction
- Restores tackiness in reactive resin and particle balls
- Will not alter surface texture
- **4 oz. bottles, spearmint scent**

MAGIC SHINE™

4 oz. SKU# OMS4-99-160
8 oz. SKU# OMS8-99-160
32 oz. SKU# OMS3-29-160

- Increases hook on the backend
- Leaves an incredible shine and a tacky finish
- Works great on all types of bowling balls
- Returns factory compound polish texture
- **4 oz. bottles, orange scent**

USBC approved. Made from high-quality components. Require less time and less volume per application. Travel friendly — labeled legal for air shipments and airplane travel. Biodegradable and made in the U.S.A.

CLEAN N' DULL™

4 oz. SKU# OCD4-99-160
8 oz. SKU# OCD8-99-160
32 oz. SKU# OCD3-29-160

- Cleaner/Restorer for urethane, reactive resin and particle balls
- Safely draws oil out of ball
- Removes dirt, grime and belt burns easily
- Great on oily lanes to keep consistent reaction
- Restores tackiness in reactive resin and particle balls
- Will not alter surface texture
- USBC acceptable during sanctioned competition
- **4 oz. bottles, lemon/lime scent**

CLEAN N' SHEEN™

4 oz. SKU# OCS4-29-160
8 oz. SKU# OCS8-29-160
32 oz. SKU# OCS3-29-160

- Cleaner/Sheen Restorer 320 to 1000 Grit
- Works great on all polyester, urethane and reactive resin balls
- Removes sanding marks and scratches
- Leaves a smooth, dull finish on resin balls, which eliminates squirt in the mid lane
- Great as a base coat for Magic Shine
- **4 oz. bottles, banana scent**

DELAYED REACTION™

4 oz. SKU# ODR4-99-160
8 oz. SKU# ODR8-99-160
32 oz. SKU# ODR3-29-160

- Gives bowlers extra length and controlled backend
- Designed for today's high-friction bowling balls
- Works well for bowlers needing extra length due to slow ball speeds, higher rev rates, drier lane conditions, or any combination of these factors
- **4 oz. bottles, grape scent**

CLEAN N' SMOOTH™

4 oz. SKU# OSM4-99-160
8 oz. SKU# OSM8-99-160
32 oz. SKU# OSM3-29-160

- Designed to restore the 1500 smooth finish to particle or reactive resin balls
- Removes small scratches
- Re-activates particle coverstocks
- Use with a cleaning agent to tackify the ball for that out-of-the-box reaction
- Great for making quick surface adjustments: polished balls can be dulled easily and dull balls can be brought up to a finer finish
- **4 oz. bottles, almond scent**
