

HOW TO
KNOCK 'EM DOWN WITH ONE
BLOW
BY "SUGAR RAY"
LEONARD

Introducing the Champ,[™] Track's newest high performance ball. This power hitter has what you need to dominate the lane. Our Heavyweight Champ Core Technology creates a perfect match between density, geometry, core and coverstock for one hell of a punch. In addition, this balance offers a smooth transition from roll to hook. On the inside, the computer-designed core is keyhole shaped. The new design allows the Champ to clear the heads and close harder than any other ball we make. And with our undefeated ProTraktion[™] coverstock, you've got a finely tuned knockout machine. It's the best in its class.

EVOLUTIONARY. REVOLUTIONARY.[™]
