

**REMEMBER THE TERM "ELLIPTICAL MASS BIAS".
YOUR COMPETITION WILL WANT TO KNOW
HOW YOU BEAT THEM SO BADLY.**

If you want exceptional ball motion, there's only one name to remember – the Track EMB™ (Elliptical Mass Bias). Our new HyperActive™ core technology combined with our proven ProTraktion Plus™ cover propels our high-performance product line to the next level.

The dynamics of the EMB elliptical-shaped core boasts a bigger "sweet spot" at the breakpoint and more pronounced backend motion. These combined characteristics produce sharper entry angle and a continuous move through the pocket resulting in explosive pin action. The new Track EMB. Go ahead. Be *biased*. We are!
