

Explosive Performance

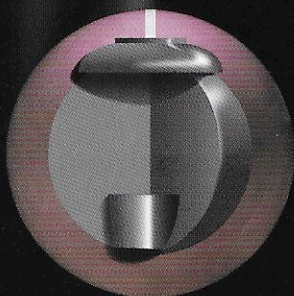

HEX PLOSION

Combine the strong performance of the Hex with the explosiveness of our Dual Torque core technology and you have the Hex-plosion, the latest offering from Track. The Hex-plosion's Dual Torque core gives you the same flare potential as the Hex without losing the backend arc you want. Plus, the polished WOW II coverstock provides extra control on today's lane conditions. The total result is a versatile ball at an attractive, mid-range price.
