

Arsenal Reactive

Rule Delta 1

Xception 5.0

## INTRODUCING THE NEXT WEAPON IN OUR ARSENAL.

Designed for heavy oil, its u-shaped flip block moves more mass away from the center of the core, creating more energy for the backend. And the light load GP2 coverstock allows it to do it all without sacrificing strong midlane reaction.

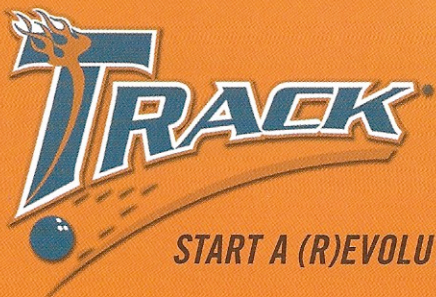

So what exactly does all of this mean to you?

Simply that you get the best qualities of a symmetric core in a powerful asymmetric design.

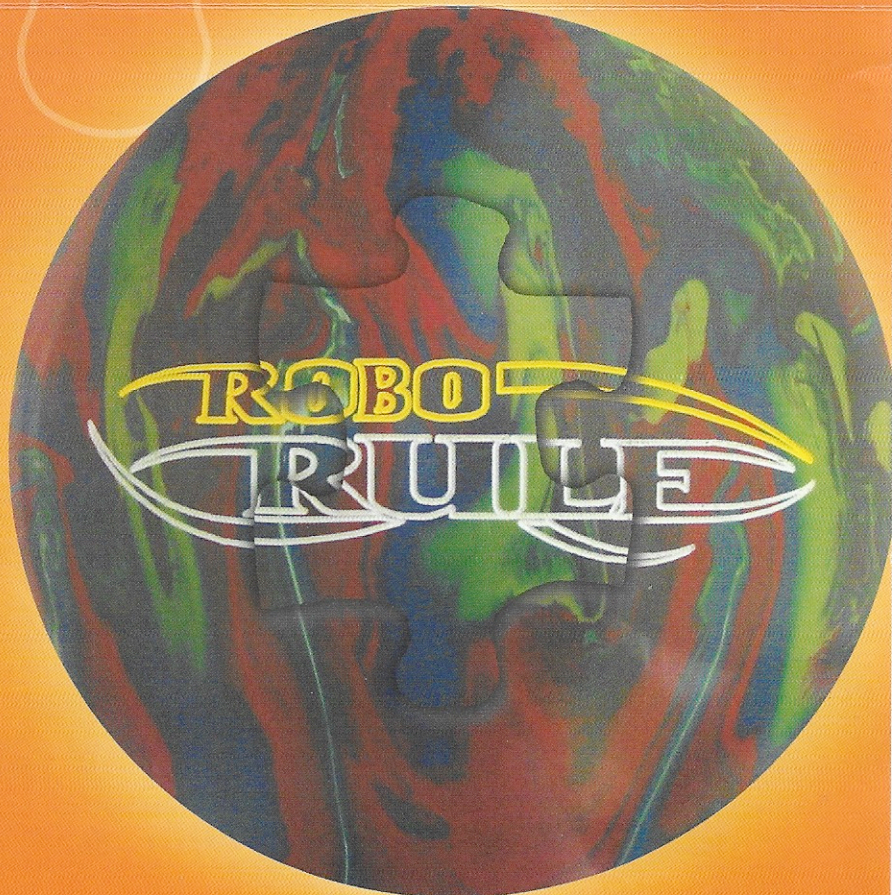

Brought to you by the design team at Track. Because we believe bowling better isn't about being the loudest – it's about bowling smarter.

## COMPLETE YOUR ARSENAL WITH TRACK'S NEW ROBO RULE

TRACK: THE INDUSTRY LEADER IN ASYMMETRIC DESIGN TECHNOLOGY

Hook Rating (Dull/Polished)	43 - 33
Length (1-10)	4.0
Backend (1-10)	9.2
Core Technology	RoboCore
Radius of Gyration	16# 15# 14#
	2.507 2.517 2.534
Differential	.052 .052 .052
Intermediate Differential	.010 .010 .010
60 Degree Spin Time (sec)	6.95
Drilled Spin Time (sec)	5.90
Flare Potential (inches)	6.5
Coverstock	Light Load Version of GP2 Particle
Color	Blue/Yellow/Red
Factory Finish	800 Grit Sheen
Recommended Cleaner	Clean 'N Dull
Recommended Polish	Clean 'N Smooth
Reaction Shape	Strong Arc
Lane Condition	Medium to Heavy Oil
Available Weights	12-16 LBS
SKU	1116-51-XXX

### The InsideTrack on the Robo Rule:

The designer team at Track is excited to offer you the new Track Robo Rule. It features a large U-shaped flip block that moves more mass away from the center of the core, creating more energy for the backend. It also features a light load GP2 coverstock that keeps the midlane reaction strong.
