

QUICK TO STRIKE!

AND **RELENTLESSLY AGGRESSIVE!**

The new **MONGOOSE OPTIMUM-R** and **MONGOOSE CHARGER** utilize state of the art reactive urethane technology to reach striking levels of performance. The OPTIMUM-R goes long and strong, finishing with a dramatic backend hook that *demolishes pins*. The CHARGER applies its destructive power with an earlier roll and a long, measured arc for *unmatched control*. Either ball can be sanded or polished to adapt to any lane condition.

Choose a **MONGOOSE** and tell the competition to *look out!*
