

**The Nkryption Code™**

**To Nkrypt:** to create an incomprehensible code that only the key holder can decipher.

AMF has taken this to the next level, creating an asymmetrical version of its benchmark ball, The Code. The Nkryption Code is sharper off the spot, creating a more angular path to the pocket; greater angle of entry means more strike potential on off-pocket hits. The key to being able to strike quickly and more often, can be found in the Nkrypted Code.

We've deciphered the Code and given you the key!!

NKRPTION CODE

**TECHNICAL SPECIFICATIONS**

	16#	15#	14#
R.G.	2.454	2.472	2.495
Diff:	0.054	0.052	0.049
Mid Diff:	0.008	0.008	0.007
Coverstock:	CodePlus™ Reactive		

Made in U.S.A.
