EXTRA! EXTRA!

In a recent news bulletin, AMF 300™ announced the arrival of Titan™, its latest mid-price ball. Sources say this ball is designed for medium oil lanes. AMF's expert R&D team have taken a proven core and maxed out its differential to .041 to perform with a stronger roll. They also lowered the Rg to 2.473. And with pearlized Super-Flex™ coverstock, Titan displays ultimate control. Word on the street is this is a perfect one-two punch when matched up with AMF's Valor/P Tour™!

Users speak out.

"Performs great!"

"Awesome looks!"

"Price is on the mark."
