

AMFORCE

Performance

AMFORCE 1: Control

The ball to use when "getting control of the lane" is the priority – especially for players who throw the ball with higher revolutions on drier wet/dry lane conditions.

Flare Potential 3"
Hook Range 10-15 (scale of 1-20)
Cover Stock VersaCover™ I
Core VersaCore™ Dual Core, Double Shell
Spin Rate Medium
Finish 800-grit matte polish
Color Indigo Pearl w/ Sky Blue logo
Weights 12, 14, 15, 16

AMFORCE 3: Skid Snap

The ball with maximum length, hook and entry angles on medium lane conditions. Works well for players with slow to medium ball speeds.

Flare Potential 5.5"
Hook Range 11-20 (scale of 1-20)
Cover Stock VersaCover™ II
Core VersaCore™ Dual Core, Double Shell With Dual Torque Blocks
Spin Rate Low
Finish 800-grit matte polish
Color Indigo Pearl w/ Lime Green logo
Weights 12, 14, 15, 16

AMFORCE 2: Heavy Roll

A heavy-rolling ball with an arcing backend reaction for players with medium to high ball speeds. Especially effective on freshly oiled lanes and extreme wet/dry lane conditions.

Flare Potential 4.5"
Hook Range 12-17 (scale of 1-20)
Cover Stock VersaCover™ I
Core VersaCore™ Dual Core, Double Shell
Spin Rate High
Finish 800-grit matte polish
Color Indigo Pearl w/ Lemon Yellow logo
Weights 12, 14, 15, 16

AMFORCE 4: Maximum Hook

A maximum hooking ball on lanes that are heavily oiled with a variety of carry-down conditions. Works well for strikers and players with higher ball speeds.

Flare Potential 6.25"
Hook Range 13-20 (scale of 1-20)
Cover Stock VersaCover™ II
Core VersaCore™ Dual Core, Double Shell With One Torque Block
Spin Rate Low to Medium
Finish 800-grit matte polish
Color Indigo Pearl w/ Orange logo
Weights 12, 14, 15, 16
