

Angle wins and wins and wins more than any other ball in bowling!

It's the Number One Ball in Bowling! The Angle, regardless of lane conditions, is the winningest ball of all – more wins on the Winter Pro Tour than any other ball *the last three years in a row!* No other ball hooks like it. No other ball hits like it. The Angle with its unique AMF urethane formula can give you the power and control to be a winner, too. All three Angles in 12, 14, 15 and 16 lbs.
