**AFFORDABLE.**

**VERSATILE. LETHAL.** Introducing the Hawk, the newest

weapon in the AMF arsenal. The Hawk combines affordability and performance in one lethal package. Its dual torque block technology offers you the best of both worlds, combining better length through the front of the lane with a strong-hooked wallop on the back end. The Hawk is versatile enough to handle any lane conditions and any bowler skill level. And because it's affordably priced, the Hawk is every bowler's dream. And every pin's worst nightmare.
