

NIGHT
HAWK

The cruel part is, the
pins can see it coming.

NIGHT HAWK
REVENGE

Introducing the latest weapon in the popular Night Hawk series, the Night Hawk Revenge. The pins will think they've personally insulted you. Instead of relying on a ton of hook, its medium RGs give you more length than any ball in the AMF arsenal, so it gets down the lane in a hurry. Then, at just the right moment, it adds a perfect dose of lethal curve, attacking at the optimum entry angle for strike after strike. The helpless pins will see their doom coming all the way down the lane. Check out the Night Hawk Revenge. It's long on the lane. But short on mercy. The Night Hawk Revenge is available at the pro shops displayed at www.amf.com.
