SPT

Strikes **hard.**
Strikes **fast.**
Strikes **often.**

*NIGHT
HAWK*

Introducing the Night Hawk SPT, featuring Super Particle Technology.

The Night Hawk franchise just took a wicked curve. Thanks to AMF's exclusive SPT, this new ball has the strongest reaction on the back end of any Night Hawk to date. Its tall core with dual flip blocks offers more torque, which means you get a sharper back end than you'd ever imagined. A sharper back end means

you can work from a higher entry angle, which offers more area, better carry and, ultimately, higher scores. It's a simple fact, the Night Hawk doesn't hunt for pleasure. It hunts to kill. The Night Hawk SPT is available at the pro shops displayed at www.amf.com
