

AZO SETS NEW STANDARDS FOR HARD HITTING BOWLING BALLS

*On The AZO Action Bowling Ball.....*This ball features versatility for bowler styles, a powerful core, tunable cover and a great price. Any house pattern is no problem, and the ball will turn the corner on a sport pattern and inflict damage with the proper alignment. The Action Ball delivers playable length, a smooth/powerful hook and the distinctive AZO "CRACK" at impact. With a new high resin base, light particle load, and strong-performing core, the Action Carbide is a heckuva lot of ball for the buck. This is a premium performance ball at a very reasonable price!
