

The Bounce™ offers a brand new weight block designed for optimum length and maximum recovery. Featuring the brand new Hour Glass Weight Block, and a brand new cover you can expect some BIG results from this small package.

The unique shape features a very tall and flippy hour glass design; with a higher RG value of 2.55 and a strong differential of 0.057 you'll easily see why this ball will fit into the "Long and Strong" category of ball motion. Wrapped with a brand new cover as well, this addition to the BIG Family gives easy length, late friction, and a defining "Bounce" on the backend.

**COLOR:** Gold / Black
