Polished;
Low
Porosity; Dry
to Medium
Lanes;
Wghts. 14,
15, & 16 lbs.**

When looking for something truly effective, you want PIN BREAKER! Our unique WEDGE shaped weight block is made of extremely dense material allowing you to control your break point with incredible results. The heavy core, set below the geometric center of the ball, provides double hitting action. This action keeps the pins close to the deck while simultaneously reducing deflection. You will increase your striking potential! A thick urethane shell is provided for traction and power making PIN BREAKER the only choice for you!

The Pin Breaker Bowling Ball is the most versatile ball for drilling different weights, and hits the pins with "devastating power" with less deflection than any "ball" I have ever bowled with.
