

“What’ll they think of next?”

The natural reaction to anything that’s truly breakthrough.

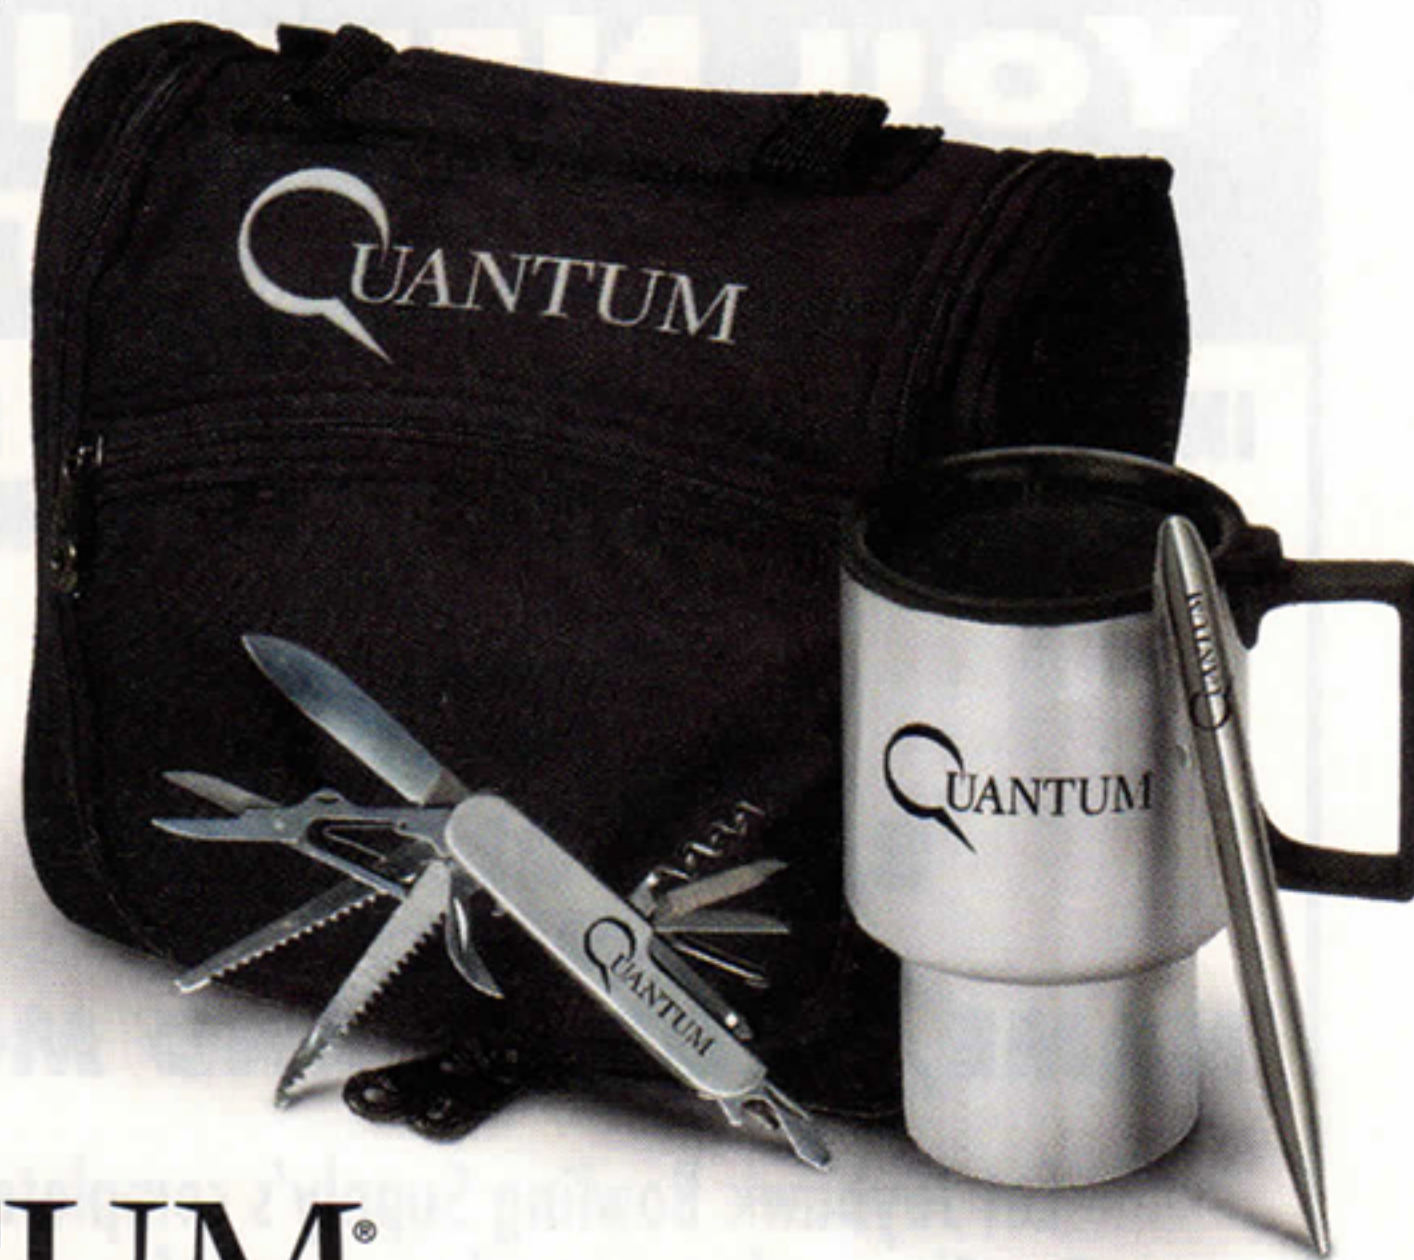

At Brunswick Technology Ventures, we don't follow anyone's lead. We're innovators. Not imitators. Consistently first. Light years ahead of whoever's second. Always reinventing. Always thinking ...

WE THOUGHT OF PERFORMANCE: Quantum® Proactive 2.0™. You can see the difference right away. This finely marbled Proactive 2.0 coverstock not only looks different, it IS different. Outperforming current Proactive™ and reactive formulations. Letting you stay lined-up longer. A lot longer.

WE THOUGHT OF PRICE: We knew you'd appreciate getting previously out-of-reach performance at a price easily within your grasp.

WE THOUGHT OF YOU: As if new technology and a lower price aren't enough. Our new Quantum Proactive 2.0 comes with a **free gift for you** — a sleek accessory pouch with brushed steel Quantum travel mug, pen and multi-function pocket knife. A \$60 value. Yours free with purchase.

Amazing? Absolutely!
Just think of what we'll think of next!

QUANTUM®
Always Thinking.
