

LICE LINE DO NOT LICE LINE DO NOT C

No Survivors.

The new Fuze™ Eliminator™ from Brunswick provides performance and control by combining a Low-Load Proactive® coverstock with a Geometrically-Balanced Low-RG core system. This dynamic combination provides an excellent read of the oil pattern without under reacting in the wet or over reacting in the dry. With the Eliminator, you'll discover more traction in the oil and smoother more continuous recovery from the dry. The Eliminator offers the versatility and forgiveness bowlers need to guarantee there are no survivors.

If you're tired of leaving survivors behind, it's time for the Fuze Eliminator.
