

Great the Greatest?

"The first time the new Brunswick Mark X was put to the test in tournament play, it won the 1980 Tournament of Champions. That's what you call passing with flying colors. This polyester ball is the first dynamically balanced bowling ball ever made. It has a unique two-piece weight block system for unmatched control and scoreability. The bowler gains greater-than-ever pin fall. And you gain greater-than-ever sales and profits!"

Carmen Sabin
