

BAD BALL. VERY BAD BALL.

Brunswick Monster® Bruiser™

The Monster Bruiser is one tough customer. Brunswick engineers have combined the steel-like heart of a Low RG Quantum® core, with the thick-skin of a PowrKoil™ 18 Reactive coverstock to create one pin-punishing brute. The shiny coverstock was designed to slice through the heads, while the Low RG dynamics deliver strong traction through the mid-lane for devastating back-end knockouts. The Monster Bruiser – made for bowlers who want to break out of their old game in a very bad way.
