

# KILLER PERFORMANCE.

Brunswick Monster® SlayR™

When the day fades away, lane conditions change. Oil patterns break down. Boards go dry. That's when Monster SlayR comes alive with killer performance other Reactive balls can't match. With a new PowrKoil™ LS coverstock, combined with a Quantum® core, the SlayR delivers long, strong down-lane recovery characteristics, along with a powerful, predictable breakpoint snap. With the Monster SlayR on your side there's no need to be afraid of graveyard conditions ever again.
