

RAGING  
INFERNO

**BRING THE HEAT.**

Brunswick Raging Inferno™

Spice up your game with the new Raging Inferno. Brunswick introduces the next generation of Activator™ coverstock technology – Activator Particle – designed specifically to burn through the oiliest lane conditions. A breakthrough design, the new Raging Inferno dishes out the traction of a particle ball, but with the red-hot hooking action and backend of a pure Reactive ball. It's the perfect recipe for bowlers ready to bring the heat.
