

ITS HOOK IS 17. IN A WORLD OF 1 TO 16, THAT IS.

Hell's frozen. Pigs're flying. The new Violet Hook Quantum's Hook Potential Rating is 17.

It's the first ball in history to hook that hard. But that's no surprise, Quantum® was the first ball in history to change the physics of the game, making lightweight balls react the same as sixteen pound balls*.

Try one of Quantum's five configurations, for performance and hook that's off the chart.
