

ACTION PACKED

Low Rg

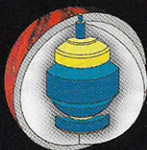

High Differential

Strong Reactive

Heavy Rolling

Great Backend

Devastating Pin Action

Rg: 2.45

Differential: 0.054

Flare Potential: 5-6"

Coverstock: M80²™

Columbia bowls the world over.®

Proudly Made in the USA

For High Performance. Action Packed combines a very low Rg, high-flaring core with our proven M80²™ coverstock. This reactive formula will provide the friction of a particle ball while maintaining one of the strongest backend reactions on the market today. Building on the success of the Action, this core and coverstock match will go longer and be stronger down the lane than the original. The perfect pair for high-scoring action.
